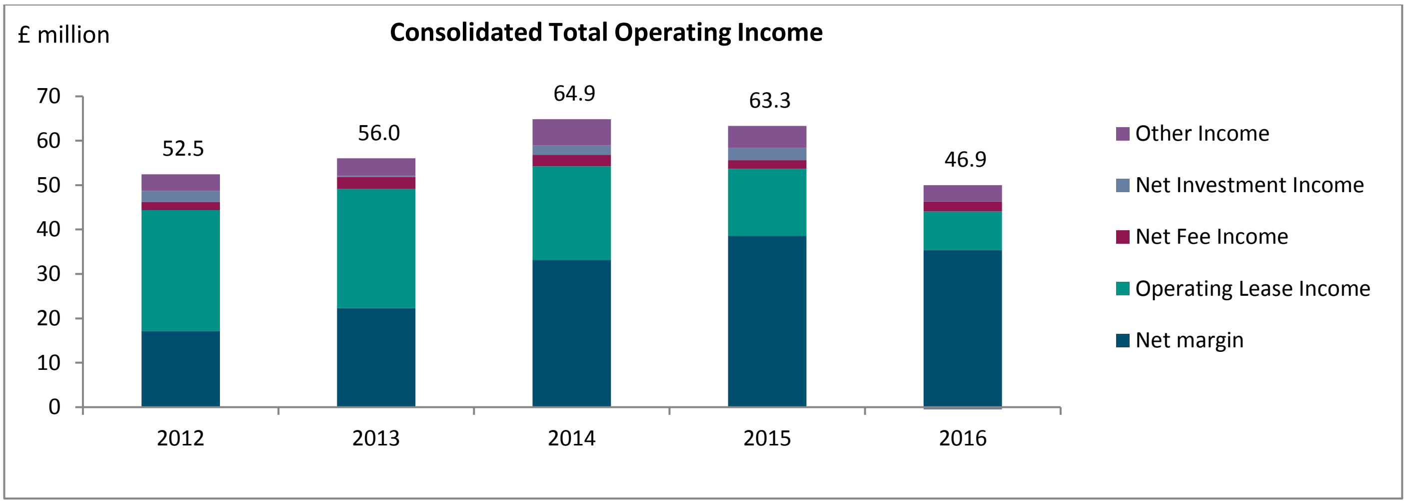
Bank of London and The Middle East plc
Annual Report and Accounts
For the year ended 31 December 2016
Registered number 05897786

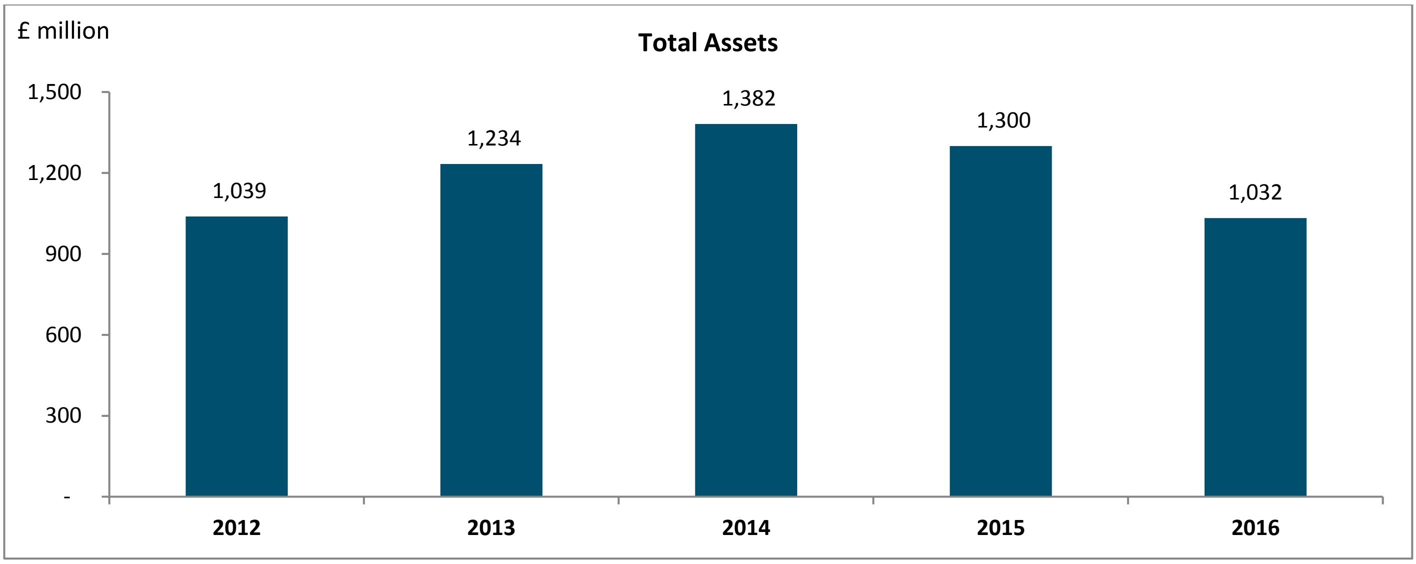
CONTENTS

2016 Group Highlights for BLME plc

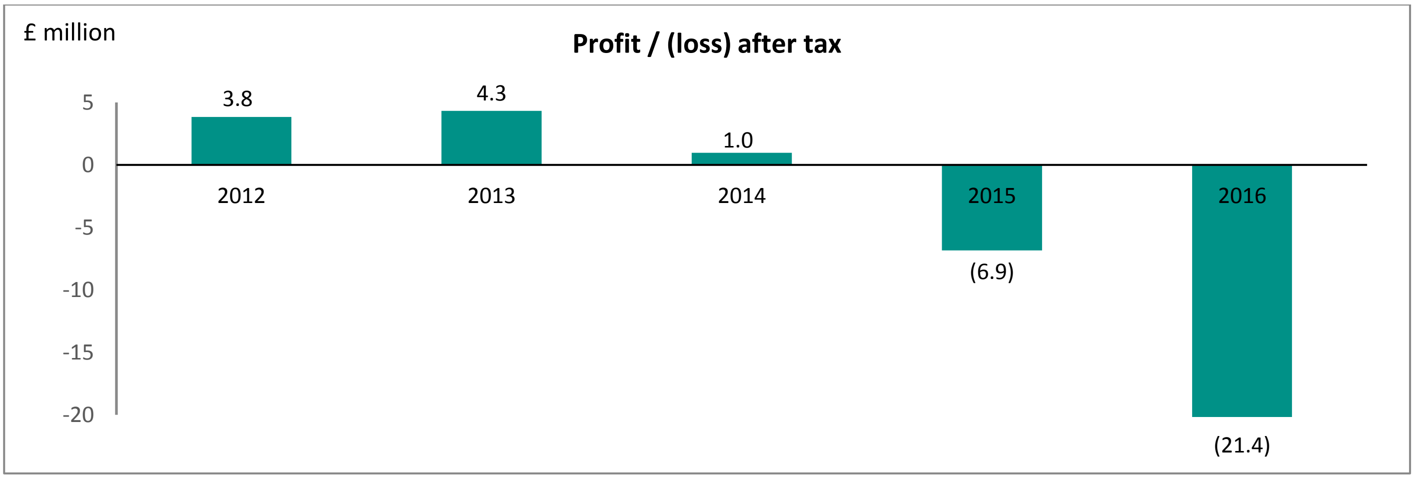
- The focus in 2016 has been the transformation of the Group into a simpler and more efficient bank
- Disappointing financial performance driven by credit losses in non-core or higher risk portfolios that have been exited or managed down
- Progress on restructuring the bank has created a platform for sustainable growth



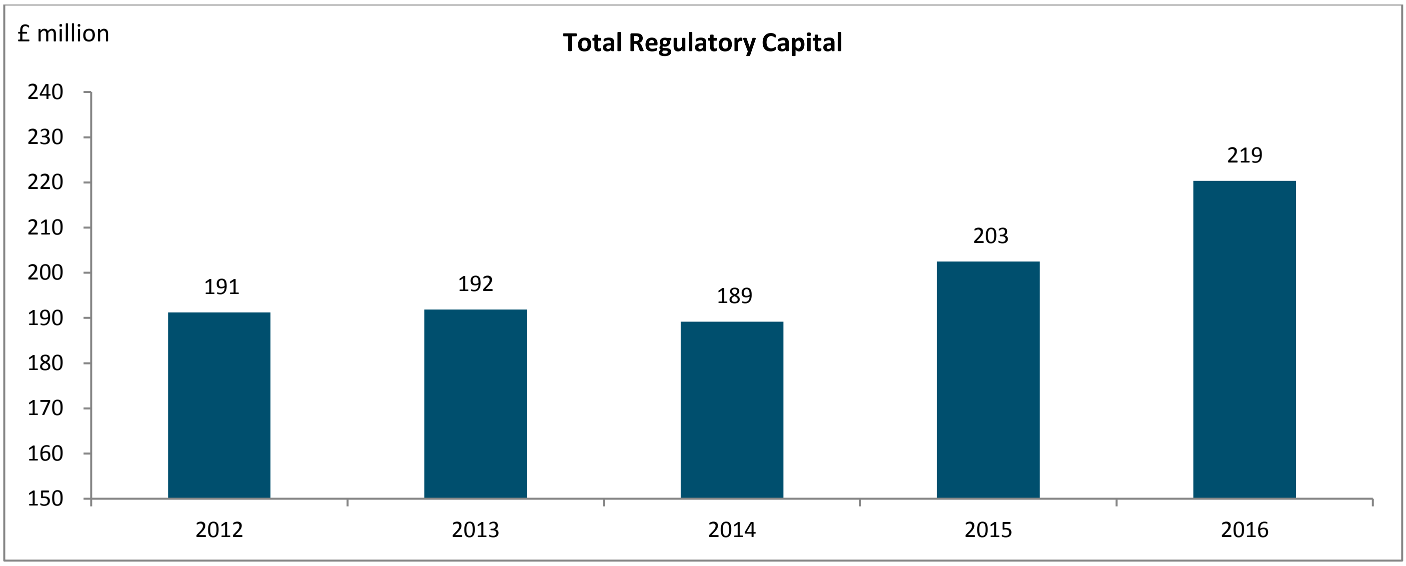
As a consequence of the Bank exiting non-core portfolios such as Islamic Capital Markets and US Leasing, and higher risk products which includes ABL Finance, operating income has decreased from £63.3 million in 2015 to £46.9 million in 2016.



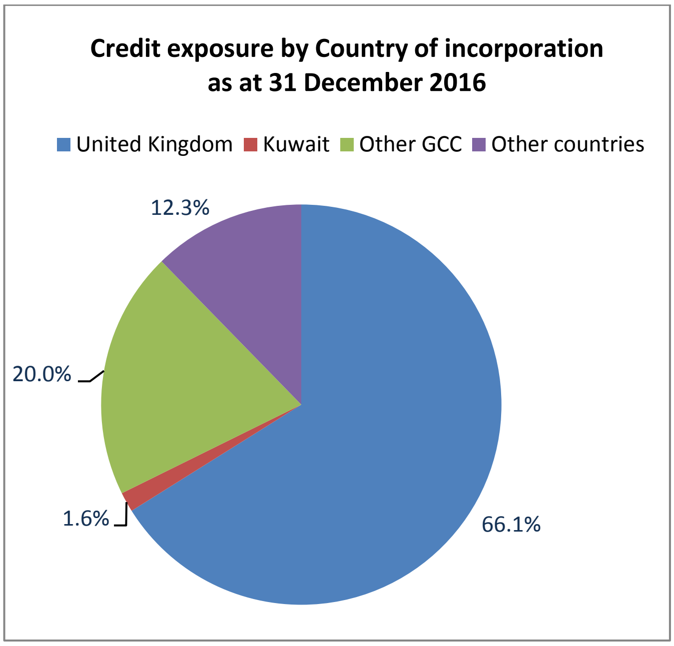
In 2016 Total Assets have contracted and stabilised at £1 billion compared to £1.3 billion at 31 December 2015 as we continued to de-risk our balance sheet which is in line with the Bank's strategy.

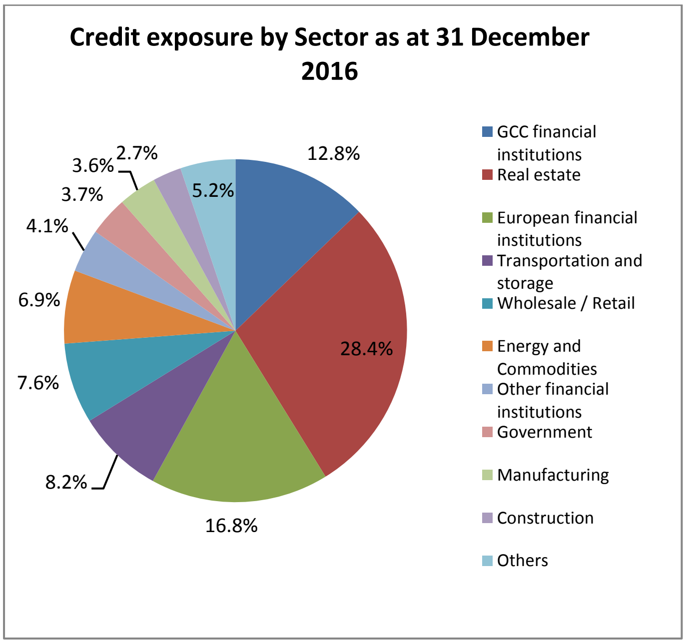


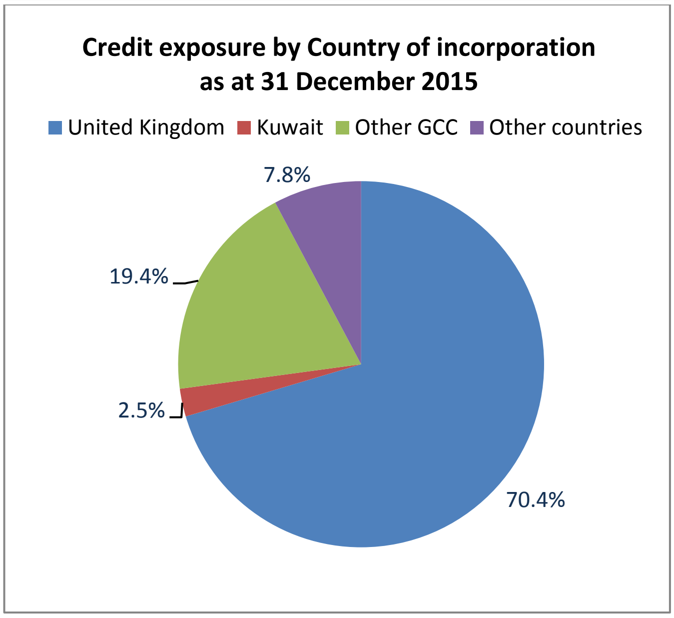
Loss for the year driven by impairment charges, deferred tax asset write-off, loss on disposal and hedging adjustments.

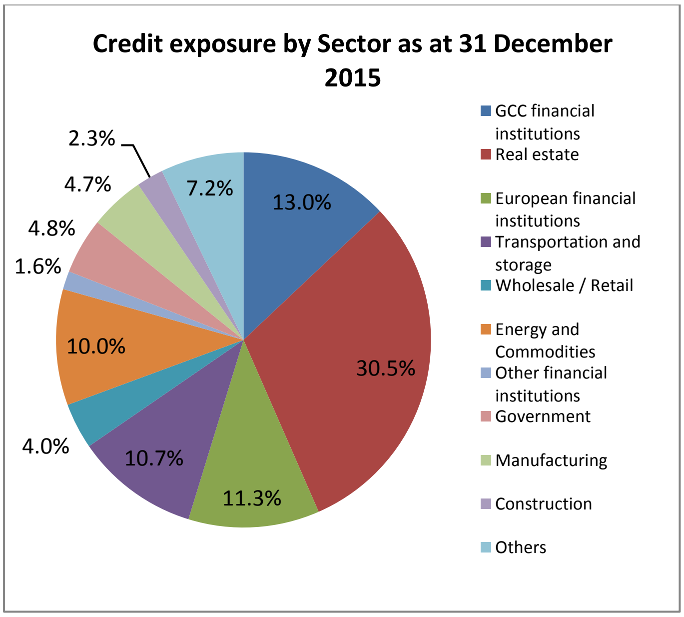


The Bank remains in a strong capital position.









Naming convention and abbreviations:

In this document the bank's name is shortened to "BLME" in narrative text.

The expression "the Bank" refers to Bank of London and The Middle East plc, which is an intermediate parent company. The expression "the Group" refers to the Bank and its subsidiaries.

The expression "the BLME Group" refers to BLME Holdings plc and its subsidiaries (including the Bank).

BLME Holdings plc is the Bank's parent company and is listed on Nasdaq Dubai.

Chairman's statement

In the name of Allah, the Most Gracious, the Most Merciful

Dear Shareholders

Although disappointed with the 2016 financial results, I am encouraged by the progress that has been made during 2016 in transforming BLME into a simpler and more efficient bank. This progress is not yet reflected in the financial performance of BLME but the work has created a platform for sustainable growth in the future.

Changes to the Board

The Board is committed to achieving long term and sustainable success for BLME and returns for shareholders.

In 2016, having acted as interim CEO, Michael Williams re-joined the Board as an Independent Non-Executive Director. Jabra Ghandour resigned as CEO in October but remains a valued member of the Board and Chris Power, BLME's Chief Financial Officer, was appointed Executive Director. Their experience will complement the Board's current mix of UK and GCC, and Wealth Management and Corporate Banking knowledge and expertise.

I welcome Giles Cunningham who was appointed CEO in November 2016; he has already developed a clear implementation plan for the Bank's strategy and taken significant steps to reduce the cost: income ratio. The Executive Management Team has also been strengthened over the past 12 months with key hires in strategically important positions.

Outlook for BLME

Transforming a bank is a significant undertaking and there remains much to be done. It has only been through the dedication and hard work of our colleagues during a difficult year that progress has been made.

Further investment will be made in the Bank's infrastructure and distribution capabilities, however the Board expects impairments and operational investment to materially reduce in the future with the expectation that the Bank will return to operating profit in the mid-term.

BLME recognises the importance of providing dividend income for our shareholders. However, until market conditions are conducive and BLME has achieved distributable reserves this will not be achievable. The Board is as disappointed as its shareholders with the lack of liquidity in the Parent Company's shares. We recognise that the best way to generate liquidity is to increase profitability and that is what the Board is focussed upon.

On behalf of the Board I would like to thank the staff for their hard work, the Sharia'a Supervisory Board for their valuable guidance and our shareholders for their loyalty and support.

Adel Abdul Wahab Al-Majed
Chairman
15 March 2017

Chief Executive Officer’s statement

I took on the role of Chief Executive Officer at BLME in 2016, fully aware of the challenges the Bank faced but also of the significant opportunities available. I have spent my first months reviewing the Bank’s strategy and producing a detailed implementation plan alongside a full efficiency review.

2016 results overview

The Group has made a loss after tax of £21.4 million for 2016 driven by a total impairment charge of £15.8 million, a deferred tax write off of £3.1 million and a £1.7 million loss on disposal of a group company after a decision to not continue our relationship with Renaissance Asset Finance Limited which resulted in deconsolidation of the asset. The result also includes a £1.4 million loss arising from hedge accounting adjustments. Almost three quarters of BLME’s specific impairment charges relate to transactions originated between 2007 and 2011 in business lines that the Bank has since exited such as Acquisition Finance or is in the process of managing exposures down such as property development finance.

As a consequence of the Bank exiting non-core portfolios such as Islamic Capital Markets and US Leasing, and higher risk products which includes ABL Finance, operating income has decreased from £63.3 million in 2015 to £46.9 million in 2016 although margin has improved slightly. By leveraging our distribution networks and with active support from key shareholders BLME’s new business pipeline is much improved and we expect to see the benefits of this pipeline start to flow through in 2017.

In 2016 Total Assets have contracted and stabilised at £1 billion compared to £1.3 billion at 31 December 2015 as we continued to de-risk our balance sheet which is in line with the Bank’s strategy.

BLME’s Strategy

BLME aims to become the preferred Sharia’a compliant wealth management provider in the UK for high net worth individuals in the GCC region. BLME will continue to leverage its reputation and network in the UK and GCC to offer Real Estate and Lease finance to businesses and individuals.

Jabra Ghandour, my predecessor, and Michael Williams made significant progress in building a solid foundation from which to implement the Bank’s new strategy, creating a more focused offering and shaping a more conservative approach to risk.

BLME’s 2017 Priorities

Putting our customers first

BLME has invested in improving operations and addressing legacy issues over the past 18 months and must now re-focus on our customers. Our customers are at the centre of our strategy, products and day-to-day operations. We are working on simplifying the Bank’s operating model. The Bank’s newly formed Middle Office will help to ensure that customer on-boarding becomes more streamlined and customer-centric.

Resilience and Consistency

When the Bank was launched ten years ago its risk appetite was less conservative than today and resulted in exposures to some asset classes which heightened the Bank’s risk profile. Moving forward BLME will apply a focussed business plan to clearly defined target customers within a disciplined risk framework. This will create a more resilient bank with less volatility.

Product development

In order to meet the needs of our customers BLME has to create new products and services for our target customers. Several new products are in development and will be launched over the course of 2017. We continue to collaborate with our customers to identify and fill gaps in our product and service offering.

Controlled and contained costs

BLME’s cost: income ratio has been too high. This is due mainly to the investment in risk management, corporate governance, compliance staff, operations and managing the legacy transactions that have been impaired. We have identified several areas of cost savings that will be implemented in the first quarter of 2017 and which will lower the operating expenses of the Bank considerably over the course of the year.

Enhanced risk management

The Bank's financial performance continues to reflect the impact of legacy issues, both transactional and operational. In response to the challenges created by the issues over the past 18 months my predecessors completed a full review of our risk management framework and operations. The Bank has enhanced risk management through improved processes, new policies and procedures and targeted recruitment including a new Chief Risk Officer.

BLME is continuously exploring ways to improve risk management and create a resilient and robust business model. We will continue this approach of continuous improvement and reflection on our risk management framework as we implement our new strategy. We have reviewed and amended our risk appetite as part of amending our strategy and are implementing appropriate risk management processes to manage the operational and conduct risks associated with expanding our wealth management business.

BLME also appointed a Chief Compliance Officer and strengthened our resources in Financial Crime and Compliance to ensure that the Bank is well equipped to comply with the Senior Managers Regime, embed a robust corporate governance framework, and to manage the risks associated with our strategy.

2017 Outlook

The global economy has suffered from a year of uncertainty. As we enter 2017 this will continue as a new US president takes office, the nature of the UK's exit from the EU remains unclear and several significant elections occur across the EU. Rising inflation and increased budget deficits will create further challenges. However with continued interest in UK investments by GCC nationals and the opportunities particularly in the UK Real Estate market, BLME is well positioned for sustainable growth.

I would like to thank the staff of BLME for their dedication and commitment during a period of change and uncertainty and look forward to creating a sustainable and profitable bank with them on a stronger and more stable footing.

Finally, I am grateful for the guidance and support I have received from the Chairman, Adel Al Majed and the Board who are fully behind our 2017 and 2018 plan to return to profitability.

Giles Cunningham
Chief Executive Officer
15 March 2017

The Board and Executive management

Adel Abdul Wahab Al-Majed – Chairman

Adel is the Non-executive Chairman of the Board of BLME Holdings plc. He has over 30 years of experience in banking. He is currently Chief Executive Officer and Vice-Chairman of BLME's largest shareholder, Boubyan Bank K.S.C.P, having previously held the position of Chairman. From 1980 to 2009 Adel worked for National Bank of Kuwait where he held a number of positions including Deputy Chief Executive Officer and General Manager. Adel has played a key role in the development of the Kuwait banking sector including regulation, shared enterprises (Credit Bureau and K-Net Shared Switch) and Islamic Banking.

Sheikh Abdullah Jaber Al-Ahmed Al-Sabah – Vice Chairman

Sheikh Abdullah is the Non-executive Vice Chairman of the Board of BLME Holdings plc. He is the Deputy Director General for Investment at Kuwait's Public Institution for Social Security ("PIFSS"), Chairman of Housing Finance Company and Vice Chairman of Ahli United Bank of Kuwait. Previously he was a Board Member of the Ahli Bank of Kuwait, Global Investment House, and the Chairman of Kuwait Financing Service Co. He started his career at PIFSS and then became a Vice President at Wafra Investment Advisory Group in New York where he was involved in direct equity, real estate and equity portfolios.

Executive Directors

Giles Cunningham – Chief Executive Officer

Giles Cunningham joined BLME in October 2016 having previously served as Chief Executive Officer, International at Qatar Islamic Bank. Prior to that appointment Giles was Chief Executive Officer of The Zubair Corporation from 2008 until 2011. He started his career at Kleinwort Benson, the investment bank before moving to Lloyds TSB Bank where he spent 17 years. Giles held a number of senior roles with Lloyds, both in the UK and internationally. This included two years as Chief Financial Officer in Lloyds Bank, Brazil and three years as the Bank's Middle East Chief Executive Officer, based in Dubai. Most recently he was based in London and responsible for the Lloyds TSB International strategy and business. Giles is a mathematics graduate, an Associate of the Chartered Institute of Bankers, holds an MBA and is an active Harvard Business School alumnus.

Chris Power – Chief Financial Officer

Chris graduated from the London School of Economics and he also holds an MBA. He qualified as a chartered accountant at Deloitte in London in 1986 and progressed to become a Senior Manager heading up the Hong Kong Banking and Securities Group of Deloitte. Chris joined the ABN Amro group in 1994, where he held various senior positions in Audit, Risk and Compliance as well as CFO and COO. This included working in Hong Kong, Thailand and Brazil, culminating in his membership of ABN Amro's Executive Group as a Corporate Executive Vice President. In 2008 he joined CLS Group Holdings AG (the world's foreign exchange settlement utility) as the Chief Financial Officer and in 2010 was promoted to the Group Finance Director of the Board.

Non-executive Directors

Michael Williams (Senior Independent Director)

Michael Williams is an independent Non-executive Board Member of BLME Holdings plc. He joined the Bank in 2012 and held positions including Chairman of the Nominations Committee and of the Risk Committee prior to being appointed Chief Executive Officer on an interim basis between May 2015 and March 2016. He is a qualified banker with an extensive background in international finance. He has held a number of senior and board level positions in the UK and in the Middle East. Prior to this he was Chief Executive Officer of the International Bank of Qatar in Doha before which he was in Dubai as the Chief Executive Officer of the National Bank of Fujairah, having previously been the Managing Director of Nomura Bank International Plc for 6 years. Michael started his career with Barclays Bank Group working for them for 25 years holding a number of senior positions including Managing Director of Barclays Global Services and Corporate Banking Director at Barclays Bank PLC.

Neil Holden (Independent)

Neil is Chairman of the Remuneration Committee of BLME Holdings plc and was Chairman of the Nominations Committee in 2016. He is a mathematician and chartered accountant with more than 30 years of experience in international banking focusing on financial control, risk management and governance. His executive roles included

Head of Corporate and Investment Banking Credit for Standard Bank Group, Head of Risk for Standard Bank Plc, and previously various senior roles at WestLB and Hambros Bank covering all risk, finance and operational disciplines. He is also a Non-executive Director of Stanbic International Insurance Limited, Integrated Financial Arrangements Plc and Saffron Building Society.

Frank Vermeulen (Independent)
Frank is Chairman of the Audit Committee of BLME Holdings plc. He has a master's degree in Dutch law and has 35 years of experience in finance. For most of the first 20 years of this period Frank worked for ABN Bank NV in a variety of roles in different countries, including Head of Corporate Banking, Syndications & International for Alawwal Bank, Riyadh. In 1992 he joined Olayan Financing Company in Riyadh, where he worked until his retirement at the end of 2006. At Olayan he held the positions of Treasurer and Chief Financial Officer and various board positions in affiliated companies in the Middle East and Europe. He also acts as an advisor to the Board of Jarir Marketing Company, Riyadh, where he is a member of the audit committee, and is a Board member at Alawwal Bank.

David Williams (Independent)
David joined the Bank in October 2015 as an Independent Non-executive Director and Chairman of the Risk Committee. He is a senior credit risk professional with 27 years of experience in international banking operating at executive and board level in the Middle East, Europe and Asia. Over a career with Barclays PLC his executive roles included Wholesale Credit Risk Director of the Barclays Group and Chief Credit Officer at Barclays Capital. David was a Non-Executive Board Director of LCH Clearnet Group Ltd. David is a former British Army officer and is currently a Trustee of Haig Housing Trust, a major services charity.

Zeyad Al-Mukhaizeem
Zeyad is a member of the Audit and Risk Committees of BLME Holdings plc. He is an investment banking leader with a background in financial services, investment management, real estate, and business restructuring / turnaround. Zeyad began his career with Kuwaiti Manager Company and has held investment banking and management positions with Kuwait Finance House and AREF Investment Group where he is currently the Executive Director of the International Investment Division. Zeyad holds numerous board positions and is currently Chairman of the Board and Executive Committee for Munshaat Real Estate Projects Company and a member of the Board and Executive Committee of Ibdar Bank B.S.C. along with board positions for real estate and private equity funds.

Jabra Ghandour
Jabra Ghandour is a Non-executive Board Member of BLME Holdings plc having previously served as Chief Executive Officer between March and November 2016. He has more than 30 years' of experience in Financial Services. Before joining BLME he was Managing Director and Board Member of International Bank of Qatar. Jabra began his career at Cairo Amman Bank where he was Head of Treasury before moving to Union Bank as Executive Manager responsible for Treasury and Financial Institutions. Jabra joined Jordan National Bank (Ahli Bank) in 1994 as Assistant General Manager followed by four years at Merrill Lynch (Jordan) as General Manager. From 2002 to 2012 he worked at National Bank of Kuwait holding several senior positions including General Manager, Jordan and Head of Private Banking. Jabra has played a key role in developing and growing market leading banks. He is also an independent Board member of Bank al Etihad.

Group Strategic report

BLME is focussed on implementing its strategy to become the leading provider of Sharia'a wealth management solutions for GCC nationals. To complement our growing Wealth Management business BLME will continue to offer Real Estate Finance and Lease Finance.

Sustainable profitability and stable returns

BLME's strategy has been created with the aim of creating stability and reducing volatility. A priority for the Bank is to implement this strategy, creating a foundation from which to build sustainable profitability and in the future, stable returns for our shareholders. BLME has exited some of the higher risk business offerings and is reducing exposure to others in line with our more conservative risk framework.

Maximise efficiencies and reduce risk

BLME has completed a full review of costs over the past three months with a number of efficiencies and savings having been identified including having all London staff operating out of one building.

The Group will continue prudently to employ capital and maintain appropriate capital adequacy, liquidity and leverage ratios. BLME reported to the PRA ratios above the minimum requirement throughout 2016. The capital planning process continues to incorporate these measures.

The result of the UK's referendum on EU membership will bring challenges but presents significant opportunities, particularly for the Bank's GCC clients. BLME has liquidity and is open for business, with wide ranging expertise in Real Estate and Leasing.

Delivering on our strategy for shareholders and clients

The Directors consider these performance indicators to provide the basis of a quantitative assessment of BLME's aspirations and the implementation of our strategy.

In order to provide a transparent and clear measurement on the impact of BLME's performance, the following key performance indicators have been identified.

Key performance indicators	**2016**	**2015**
Net operating (loss) / profit before tax	£(18.9)m	£(8.4)m
(Loss) / profit after tax	£(21.4)m	£(6.9)m
Pre-tax return on equity	(8.7)%	(3.5)%
Cost income ratio (adjusted for operating lease depreciation)	103.3%	76.1%
Net fee income / total income	4.6%	3.0%
Development property as percentage of total property lending facilities	92.7%	71.5%
Deposits from primary depositor as percentage of total deposits	63.0%	56.9%

Well-governed, innovative and client-centric Sharia'a bank

Respect and compliance with the law, regulations and Sharia'a principles is the highest priority for BLME. This priority positions integrity, consistency and fairness at the heart of BLME's operations. It is central to BLME's culture that all stakeholders are valued, and treated with dignity and transparency. BLME approaches clients, business and product development with a strong attention to risk.

Business divisions

Corporate Banking

BLME has well-established Leasing, Real Estate and Trade Finance products. Specialist finance, including yacht, aircraft and luxury car finance is offered to our wealth management clients.

Wealth Management

In addition to the Real Estate and Specialist finance, BLME Wealth Management provides deposit products, transactional banking and concierge services. Wealth Management provides Real Estate investment and finance solutions including sourcing properties.

Treasury

Manages the Bank's Capital and liquidity of the Bank and is also responsible for funding all assets and operating within BLME's market risk appetite. To this end Treasury also ensures funding is sourced at cost effective rates across a diverse liability base both at the wholesale and retail client level.

BLME has a market leading savings product, the Premier Deposit Account, in addition to reciprocal interbank relationships.

Our commitment to providing excellent service and the drive of staff will provide the foundation for the implementation of our strategy and our return to profitable growth. BLME will continue to build on these values and principles as we move forward as a more focussed and collaborative Bank.

A review of the Group's business and performance can be found in the Chairman's statement, Chief Executive Officer's statement and Note 4. A description of the principal risks and uncertainties facing the business is detailed in Note 36.

By order of the Board

Giles Cunningham
Chief Executive Officer
15 March 2017

Directors' report

The Directors present their annual report and audited financial statements for the year ended 31 December 2016.

Principal activities

Bank of London and The Middle East plc ("the Bank" or "BLME") was originally incorporated in the United Kingdom on 7 August 2006 (as United House of Britain plc) and received FSA authorisation to launch and start trading as a bank in the City of London on 5 July 2007. BLME is an independent, wholly Sharia'a compliant wholesale bank authorised by the UK's Prudential Regulation Authority (the "PRA") and regulated by the Financial Conduct Authority ("FCA") and the PRA. The Bank provides a range of Sharia'a compliant banking services to businesses and individuals with a strong focus on the UK and the Middle East. BLME has three strategic business divisions - Corporate Banking, Wealth Management and Treasury - offering competitive financial products and services. BLME Holdings plc is the parent company of BLME. This was effected pursuant to a Scheme of Arrangement in 2013 which is explained in more detail in Note 31.

Financial results and dividends

The financial statements for the reporting period ended 31 December 2016 are shown on pages 28 to 130. The consolidated Group loss for the year after taxation amounts to £21.4 million (2015: loss of £6.9 million). The loss for the Bank for the year after taxation amounts to £21.4 million (2015: loss of £7.1 million). The Directors do not recommend the payment of a dividend (2015: £nil). The results for the year are discussed further in the group strategic report.

Directors

The Directors who held office during the year, and their committee memberships and functions as at 31 December 2016, were as follows:

Name and Board/Committee Chairmanships (as at 31 December 2016)	**Date of Appointment**	**Date of Resignation**	**Committee Memberships** (as at 31 December 2016)
Adel Abdul Wahab Al-Majed *Chairman of the Board*	6 December 2012		
Sheikh Abdullah Jaber Al-Ahmed Al-Sabah *Vice Chairman of the Board*	22 October 2007		Audit Risk Remuneration
Giles Cunningham	17 November 2016		Executive Credit
Chris Power	26 September 2016		Executive
Richard Williams	28 November 2006	1 March 2016	
Neil Holden (Senior Independent Director) *Chairman of the Nominations Committee* *Chairman of the Remuneration Committee*	1 November 2006		Nominations Audit Risk Remuneration Credit
Frank Vermeulen (Independent) *Chairman of the Audit Committee*	1 January 2007		Nominations Audit Risk Remuneration Credit
Michael Williams (Independent)	2 March 2012		Nominations Credit
Zeyad Al-Mukhaizeem	18 October 2013		Audit Risk Remuneration
David Williams (Independent) *Chairman of the Board Risk Committee*	15 October 2015		Nominations Risk

Chairman of the Board Credit Committee			Credit
Jabra Ghandour	25 March 2016		

There were some significant changes to the Board during 2016. Richard Williams stepped down from the Board on 1 March 2016 with Chris Power, the Group's Chief Financial Officer, appointed to the Board on 26 September 2016. Michael Williams stepped down as interim Chief Executive Officer on 25 March 2016 with Jabra Ghandour appointed as Chief Executive Officer on 25 March 2016; Jabra stood down to become a non-executive director on 17 November 2016. Giles Cunningham took over as Chief Executive Officer and was appointed to the Board on 17 November 2016.

In accordance with the Articles of Association Adel Abdul Wahab Al-Majed and Sheikh Abdullah Jaber Al-Ahmed Al-Sabah will retire by rotation at the next Annual General Meeting and Giles Cunningham and Chris Power, who were appointed by the Board during the year, will also retire. They will offer themselves for re-appointment at the next Annual General Meeting.

The Group provided all Directors with qualifying third party indemnity provisions during the financial year and at the date of this report.

Sharia'a Supervisory Board members

The Sharia'a Supervisory Board members during the year were as follows:

- Sheikh Dr. Abdulaziz Al-Qassar (Chairman)
- Sheikh Dr. Esam Khalaf Al-Enezi
- Sheikh Dr. Mohammed Daud Bakar

Financial Risk Management

The Group and Bank have exposure to the following risk categories:

- Credit risk
- Liquidity risk
- Market risk
- Operational risk
- Capital risk
- Conduct risk

A full description of how the Group and Bank manages these risks is provided in Note 36.

Policy and practice on payment of creditors

BLME's policy is to agree terms of payment with suppliers and these normally provide for settlement within 30 days after the date of the invoice, except where other arrangements have been negotiated.

Political contributions

BLME made no political contributions during the year (2015: £nil).

Going concern

The Directors have reviewed the business activities and financial position of the Group and have a reasonable expectation that it has adequate resources to continue in operational existence for the foreseeable future. In making this assessment the Directors have considered a wide range of information about the current and future condition of the Group including the strategic direction, activities and risks that affect the financial position.

The financial performance in 2015 and 2016 has been very disappointing, however, the Board re-assessed the Group's risk management framework early in 2016 and has now developed a clear strategy and implementation plan to return the Group to profitability. Reducing the cost: income ratio is a key driver and the Board has already identified a number of areas that will result in Q1 2017 savings whilst also providing an appropriate platform from which the Bank's strategy can be executed. The Directors have also assessed the 2017 budget and forecasts with comfort drawn from the Bank's Liquid Asset Buffer, robust capital position and the strong relationships between the Group and its liquidity providers. Furthermore, the Directors have assessed how the low oil price environment has affected the Group's major funders and noted that the impact has been minimal to date.

The result of the UK's referendum on EU membership is considered to be an area of opportunity for the Bank. However, given the uncertainties across the global economy, management assessed and stress-tested a number of scenarios in the run-up to the vote. Accordingly the immediate impact of the result was appropriately managed and is being monitored on a frequent basis.

For these reasons the financial statements have been prepared on a going concern basis.

Articles

During the year, the Bank's Articles of Association were amended to increase the maximum number of directors from nine to ten in order to align them with the articles of its parent company and 100% shareholder, BLME Holdings plc.

Disclosure of information to auditor

The Directors who held office at the date of approval of this Directors' report confirm that so far as they are each aware there is no relevant audit information of which the Bank's auditor is unaware, and each Director has taken all steps that he ought to have taken as a Director to make himself aware of any relevant audit information and to establish that the Bank's auditor is aware of that information.

Auditor

KPMG LLP has been engaged as the Group's auditor for almost 10 years, and in accordance with auditor tender rules, the Board has considered it appropriate to undertake a tender process in 2017. A resolution concerning the appointment of the external auditor and authorising the Directors to set their remuneration will be proposed at the Annual General Meeting.

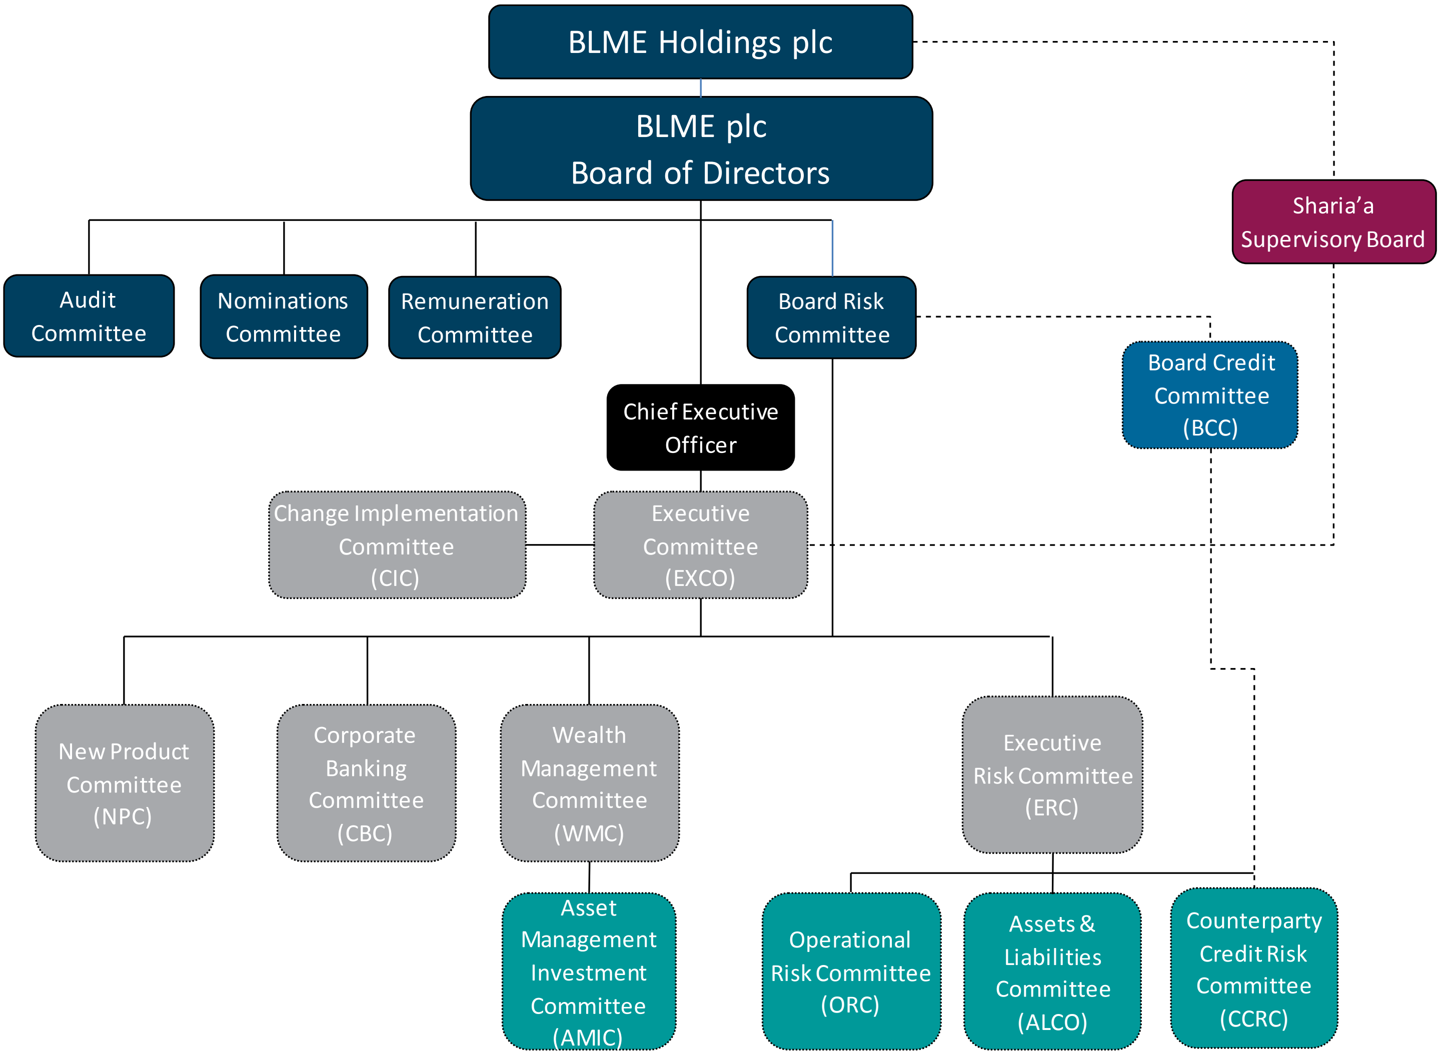
By order of the Board

Peter Bulkeley
Company Secretary
15 March 2017

Corporate governance report

The Board considers that good corporate governance is central to achieving the Group's objectives. To this end, the Board has established a governance framework that sets out procedures, policies and practices that are required by law, regulation and/or best practice guidelines. The framework is also used to determine risk appetite in line with the Group's defined strategic objectives. Risk appetite adherence is monitored through a formalised process of risk identification, control assessment and performance monitoring. Board and executive committee structures have been implemented, together with clearly defined roles and responsibilities for both the individuals and the committees. These committees oversee the activities of the Group and help ensure controls are operating as designed. These structures, including individual department business plans, ensure that appropriate financial and human resources are in place to deliver the Group's strategic objectives. Policies and behavioural standards have been established and reiterated to all staff through regular training programmes, including anti-money laundering and financial crime, the UK Bribery Act, conflicts of interest and treating customers fairly.

Governance structure



Note: The Group operates with a dual board structure with mirror image Audit, Nominations, Remuneration and Board Risk Committees for both BLME Holdings plc and Bank of London and The Middle East plc.

The Board of Directors

The Board is responsible for BLME's system of corporate governance.

As at 31 December 2016 the Board of Directors comprised two Executive Directors:

- Giles Cunningham – Chief Executive Officer
- Chris Power – Chief Financial Officer

and eight Non-executive Directors, including the Non-executive Chairman:

- Adel Abdul Wahab Al-Majed – Non-executive Chairman
- Sheikh Abdullah Jaber Al-Ahmed Al-Sabah – Vice Chairman of the Board
- Neil Holden – Senior Independent Director and Chairman of Nominations Committee and Remuneration Committee
- Frank Vermeulen – Chairman of Audit Committee (Independent)
- David Williams – Chairman of Risk Committee (Independent)
- Michael Williams (Independent)
- Zeyad Al-Mukhaizeem
- Jabra Ghandour

The appointment of Directors is considered by the Nominations Committee and ratified by the Board. Pursuant to the provisions of the Company's Articles of Association, any Director who has been appointed by the Board during the financial year, rather than at a general meeting of Shareholders, must stand for election by the Shareholders at the first Annual General Meeting following their appointment, and following that meeting, must stand for re-election by the Shareholders at least every three years.

Non-executive Directors are appointed for three-year renewable terms, which may be terminated by giving three months' notice.

All the Directors have access to the advice and services of the Company Secretary, who is responsible for ensuring compliance with Board procedures and applicable regulations. Independent professional advice is available to the Directors at the Bank's expense where they judge it necessary to discharge their duties as Directors.

Board Meetings

The Board of Directors meets at least quarterly and has a defined agenda of matters reserved for its decision. The Board is responsible for the overall company strategy, setting the risk appetite, approval of major capital expenditure projects and consideration of major financing matters. The Directors discharge their duties within a framework of controls relating to the assessment and management of risk.

The matters specifically referred to the Board for decision include the approval of the annual report and financial statements, the payment of dividends, the long-term objectives of the Group, the strategies necessary to achieve these objectives, the Group's budgets and plans, significant credit exposures, significant capital expenditure items, significant investments and disposals, the organisational structure of the Group, the arrangements for ensuring that the Group manages risk effectively and any significant change in accounting policies or practices.

Board Committees

The Board has delegated to the Committees of the Bank the responsibility to review and make recommendations to the full Board. The Board Committees operate within clearly defined terms of reference which can be found on the Group's website.

Board and Committee meetings attendance record 2016

David Williams	5	5	10	5	2	7				5	3	8			
Jabra Ghandour	1		1												

Of the 10 board meetings held during the year, five were regular meetings and five were ad hoc meetings. The ad hoc meetings covered a broad variety of topics including approving the Annual Report and Accounts, approving the appointment of a new Chief Executive Officer, approving the notice of AGM, approving the 2016 ICAAP, ILAAP and RRP, approving correspondence with the PRA relating to Individual Capital Guidance and amendments to BLME plc's Articles of Association to align them with the articles of its parent company. All serving directors were invited to these ad hoc meetings and provided with board papers, but were not always able to attend at relatively short notice. The Executive Directors regularly attend the Audit Committee and Risk Committee meetings as guests.

Board Audit Committee

The Audit Committee is chaired by Frank Vermeulen and comprises Sheikh Abdullah Jaber Al-Ahmed Al-Sabah, Zeyad Al-Mukhaizeem and Neil Holden.

The Committee's main responsibility is to review any reports from management, the internal auditor, and the external auditor regarding the accounts and the internal control systems implemented throughout the Bank, along with consideration of both interim and annual accounts. It also makes recommendations to the Board on the appointment of the auditors and the audit fee.

The Board considers that the members of the Audit Committee possess recent and relevant financial experience. The Audit Committee has unrestricted access to the Group's auditors. The external auditor, KPMG LLP, provide non-audit services in addition to the provision of audit services. In the year ending 31 December 2016, non-audit services provided by KPMG LLP comprised advice with regards to Corporation tax, VAT and other miscellaneous services. Further details regarding the fees paid to KPMG LLP for these services are included in Note 12 on page 64.

The Audit Committee is responsible for reviewing and monitoring the external auditor's independence and objectivity and the effectiveness of the audit process. The process through which the Committee assesses the auditor's independence and objectivity each year includes the following:

- a review of non-audit services provided to the Group and related fees
- discussion with the auditors of any relationships with the Group and any other parties that could affect independence or the perception of independence
- a review of the auditor's own procedures for ensuring the independence of the audit firm and partners and staff involved in the audit, including the regular rotation of the audit partner

- obtaining written confirmation from the auditors that, in their professional judgement, they are independent

More information regarding the Group's Audit Committee is included in the Audit Committee report on page 22.

Board Risk Committee

The Board Risk Committee is chaired by David Williams and comprises Sheikh Abdullah Jaber Al-Ahmed Al-Sabah, Frank Vermeulen, Neil Holden and Zeyad Al-Mukhaizeem.

BRC is responsible for the oversight of the risk profile of the Bank and for providing guidance, advice and recommendations to the Board on credit, market, liquidity, direct investment and operational risks with a view to re-enforcing a culture that encourages good stewardship of risk. Within this mandate it reviews risk levels in consideration of the Group's overall risk appetite, market conditions and business strategy. It also overviews BLME's Internal Capital Adequacy Assessment Process ("ICAAP") and Individual Liquidity Adequacy Assessment ("ILAAP") and assesses the adequacy of stress testing and risk policy.

Ultimate responsibility for risk rests with the Board which, with advice and recommendations from BRC, approves the risk appetite for each major class of risk in line with BLME's business model and strategic priorities and also approves the annual ICAAP and ILAAP. Board Credit Committee is a sub-committee of BRC established to review and opine on decisions made by the Counterparty Credit Risk Committee that are outside of stated risk appetite and/or meet other escalation criteria.

The management of risk is delegated to the Chief Executive Officer who in turn delegates the day-to-day management of risk to the Executive Committee and, in particular, to the Executive Risk Committee which oversees the three sub-committees of the Bank responsible for risk oversight (being ALCO, CCRC and ORC). The day-to-day independent oversight of risk is performed by the Bank's risk department. This process is supported by the finance department's internal control role in monitoring adherence to risk limits, management action triggers and regulatory limits.

During the year, ERC took oversight responsibility for ALCO, CCRC and ORC. The CIC, NPC and WMC were all created in 2016, with the latter having oversight responsibility of AMIC.

Board Remuneration Committee

The Remuneration Committee is chaired by Neil Holden and comprises Sheikh Abdullah Jaber Al-Ahmed Al-Sabah, Frank Vermeulen and Zeyad Al-Mukhaizeem.

The Remuneration Committee ensures that employees, management and executive compensation is appropriately aligned to business and individual performance, and is consistent with Shareholder interests and is in compliance with the FCA's Remuneration Code. It performs these duties within a framework that takes account of prevailing market conditions, best market practice and regulatory compensation guidelines. The Remuneration Committee has appointed Mercer as a professional advisor. Mercer is independent and has no connection with BLME.

More information regarding the Group's Remuneration policy is included in the Remuneration report on pages 23 to 24.

Board Nominations Committee

The Nominations Committee was chaired by Neil Holden throughout 2016; with effect from 27 February 2017, Michael Williams became chair following his appointment as the Senior Independent Director. The Nominations Committee also comprises Frank Vermeulen and David Williams.

The Nominations Committee is responsible for matters relating to the composition of the Board, including the appointment of new Directors, and making recommendations to the Board as appropriate. The Committee is also responsible for overseeing the annual performance evaluation of the Board, its principal Committees and the Chairman.

The Nominations Committee identifies qualified candidates to be Directors, through a robust and prudent process, with the use of external consultants as necessary. All candidates must be approved by the PRA.

Chairman and Chief Executive

The roles of Chairman and executive management, led by the Chief Executive Officer, are separated and clearly defined:

a. The Non-executive Chairman, Adel Abdul Wahab Al-Majed, is responsible for the leadership of the Board, ensuring effectiveness in all aspects of its role, reviewing the Board's agenda and conducting Board meetings, and ensuring effective communication with Shareholders and the conduct of Shareholders meetings.

b. Executive management is led by the Chief Executive Officer, Giles Cunningham, who has been delegated responsibility by the Board for the day-to-day management of the Bank within the control and authority framework set by the Board. The Chief Financial Officer, Chris Power, assists the Chief Executive Officer in managing the business.

c. The Company Secretary, Peter Bulkeley, is responsible for ensuring good information flows within the Board and its Committees and between senior management and Non-executive Directors, as well as facilitating inductions and assisting with professional development of Board members as required. The Company Secretary ensures that Board procedures are complied with, and advises the Board, through the Chairman, in all governance matters. The Board has the responsibility for appointing and removing the Company Secretary.

Board balance

The Board includes a balance of Executive and Non-executive Directors such that no individual, or small group of individuals, can dominate the Board's decision taking. The size of the Board and balance of skills is considered appropriate for the requirements of the business. No one other than the Committee chairman and Committee members is entitled to be present at a meeting of the Audit, Nomination, Risk or Remuneration Committees, but others may attend at the invitation of each Chairman.

During the year ended 31 December 2016, on average two of the Directors were Executive directors; on average three were Non-executive Directors who were considered by the Company to be independent.

The Board believes that the Non-executive Directors who are classified as independent have retained their independent character and judgement. The Board periodically reviews the independence of its Non-executive Directors to assess whether their judgement could be impaired in any way which could affect the interests of the Company. The Board uses objective criteria to make this assessment, including:

- the length of term which the Non-executive Director has already served
- whether the Non-executive Director has any material business relationships which may conflict with the interests of the Bank
- relationships with other Directors
- whether the Non-executive Director is a Shareholder
- the nature of the Non-executive remuneration, including any participation in employee incentive arrangements

Information and professional development

The Board is supplied in a timely manner with information in a form, and of a quality appropriate to enable it to discharge its duties. The Company Secretary is responsible for ensuring the Directors receive accurate, timely and clear information, which is provided by operational management and enhanced or clarified where necessary. Professional development and training for the Board is assessed and monitored by the Nominations Committee and reviewed as part of the annual performance evaluation and in compliance with the Senior Managers' Regime.

Financial reporting

The Board is responsible for presenting a balanced and understandable assessment of the Bank's position and prospects, extending to interim reports and returns to regulators, including statutory requirements.

Internal control

The Directors are responsible for reviewing the effectiveness of the Bank's internal controls on an annual basis. There is an on-going process to identify, evaluate and manage risk, which has been in place throughout the year and is regularly reviewed by the Board with guidance from the Audit Committee.

The internal control framework covers financial, operational and compliance areas and risk management. There are limitations to any system of internal control, which can only provide reasonable but not absolute assurance with respect to the preparation of financial information, the safeguarding of assets and the possibility of misstatement or loss. As the first line of defence management test the adequacy of the systems and controls that are in place. They are also periodically tested independently through the Compliance Monitoring Plan providing a second line of defence and by thorough reviews conducted by Internal Audit as the third line of defence. The findings of these reports and subsequent tracking of the remedial actions required are monitored by the appropriate internal committees and by the Audit Committee to ensure all open action points are closed and the adequacy of all systems and controls are maintained.

Relations with Shareholders

The Directors place great importance on maintaining good communications with all investors. The BLME Group reports formally to Shareholders twice a year with the publication of its interim and annual reports. More detailed information regarding the BLME Group's relations with shareholders is included within the "Relations with Shareholders" section of the Corporate Governance Report included within the Annual Report and Accounts of the Parent company which is available on the Bank's website.

Sharia'a Supervisory Board report

In the name of Allah, the Most Gracious, the Most Merciful

To the Shareholders of Bank of London and The Middle East plc

Assalamu Alaikum wa Rahmat Allah wa Barakatuh.

The management of BLME is responsible for ensuring that the Bank conducts its business in accordance with the principles of the Sharia'a. It is the responsibility of the Sharia'a Supervisory Board to form an independent opinion, based on the review of the operations, agreements and transactions conducted by BLME. It is the responsibility of BLME management to implement the decisions of the Sharia'a Supervisory Board.

We, the Sharia'a Supervisory Board of BLME have reviewed and monitored the operations, agreements and transactions conducted by BLME during the period 1 January 2016 to 31 December 2016 and have reviewed the BLME Annual Report and Accounts for the year ended 31 December 2016. We conducted our reviews to form an opinion as to whether BLME has complied with the principles of the Sharia'a and with specific fatwa rulings and guidelines issued by the Sharia'a Supervisory Board.

It is the Sharia'a Supervisory Board's opinion that:

1. The operations, agreements and transactions entered into and conducted by BLME during the year 1 January 2016 to 31 December 2016 and which were reviewed by the Sharia'a Supervisory Board are in compliance with the principles of the Sharia'a.
2. The distribution of profits and the sharing of losses in terms of the investment accounts at BLME are in compliance with the principles of the Sharia'a.
3. All income and profit generated by BLME during the year 1 January 2016 to 31 December 2016 has been derived from Sharia'a compliant sources.

BLME will provide shareholders with a calculation of the zakat payable on their shareholdings but it is the sole responsibility of shareholders to pay the zakat.

We ask Allah to lead the management and staff of BLME towards integrity, correctness and further success.

Wassalam Alaikum wa Rahmat Allah wa Barakatuh

Signed on behalf of the Sharia'a Supervisory Board of Bank of London and The Middle East plc

Sheikh Dr. Abdulaziz Al-Qassar
Chairman

Zeyad Al-Mukhaizeem
Neil Holden

Audit Committee Guests
KPMG – (external auditor)
PwC – (internal audit)
David Williams – INED
Chief Financial Officer
Chief Compliance Officer

Dear Shareholder,

It is my pleasure to inform you about the modus operandi and activities of the Audit Committee. The responsibility of the Committee is to monitor the financial reporting process and to monitor the effectiveness of the Group's internal quality control and risk management systems including internal audit. As part of the Committee's role, it reports to the Board on the effectiveness of these controls, the independence and the effectiveness of the statutory auditor. The Committee reviews the full year financial statements as part of its role.

To ensure it fulfils its responsibilities under its terms of reference the Committee establishes an annual agenda. This includes reviewing the annual Internal Audit plan, utilising BLME's Operational Risk Register, to ensure it applies appropriate emphasis to the key risk areas. The Committee also monitors and reviews the effectiveness of the outsourced Internal Audit function in conducting this plan by reviewing the regular reports and assessing management's responses including their effectiveness in delivering the recommended changes. The Committee also reviews reports received from management on key business areas, with particular emphasis on compliance (including financial crime and compliance monitoring), internal controls and operational risk, and assesses the Group's accounting policies and financial reporting processes including assessing significant judgements and estimates contained within the financial statements. This included consideration of the specific and collective impairment provisions, the de-recognition of deferred tax assets, the deconsolidation of a small ticket leasing company and the application of hedge accounting. Given the very disappointing financial performance in 2016 with the Bank addressing legacy issues in its risk portfolio, the Committee's agenda included considerable time assessing the specific impairment provisions. In addition the Committee has commenced the consideration of the impact of IFRS 9 Financial Instruments, which is described in more detail on pages 41 to 42, and which will remain a subject of focus in the coming year.

The Committee has benchmarked its terms of reference against regulations and best practice, for similar businesses, and found that no significant adjustments were required and has established its annual programme of activities to enable it to meet the requirements set out by regulation or in the terms of reference. The Committee recognises that a culture of integrity, respect and transparency is important and that the Committee must perform a role in ensuring that this is engendered within the Group.

The Committee makes recommendations to the Board on the appointment of the external auditors and has unrestricted access to BLME's auditors. The external audit is required to be subject to a tendering process in 2017 as the existing auditor has been engaged by the Group for 10 years.

The Audit Committee is responsible for reviewing and monitoring the external auditor's independence and objectivity and the effectiveness of the audit process. The process through which the Committee assesses the auditor's independence and objectivity each year includes the following:

- review and discussion of the external audit plan and results of the annual audit
- a review of non-audit services provided to the Group and related fees
- discussion with the auditors of any relationships with the Group and any other parties that could affect independence or the perception of independence
- a review of the auditor's own procedures for ensuring the independence of the audit firm and partners and staff involved in the audit
- obtaining written confirmation from the auditors that, in their professional judgement, they are independent.

Remuneration report

Statement from the Chairman of the Board Remuneration Committee

Remuneration Committee Members
Neil Holden – Chair
Sheikh Abdullah Jaber Al Ahmed Al Sabah
Frank Vermeulen
Zeyad Al-Mukhaizeem

Remuneration Committee Guests
Mercer (advisor)
Paul Riordan – COO
David Williams – INED
Michael Williams – INED

Dear Shareholder,

As Chairman of the Board Remuneration Committee I am pleased to introduce the Remuneration Report for 2016 to provide information regarding the BLME Group's remuneration policy and decisions.

Financial performance in 2016 was very disappointing and is commented upon in more detail in the Chairman's and Chief Executive Officer's statements on pages 5 to 7. In that context the Bank has been addressing legacy issues both in its risk portfolio and strcutures and revising the strategy to focus more and build on its Wealth Management capability. This work includes improving the underlying cost income ratio and addressing the misalignment of front to back office resources. These changes will continue into 2017 and considerable progress is already apparent.

Remuneration policy

Our ability to deliver against our strategy requires us to attract and retain high calibre staff and align their interest with shareholders. Our Remuneration Policy is designed to ensure that we are competitive in the market and hence able to attract such high calibre staff whilst retaining, developing and motivating our existing staff. The remuneration policy framework is designed to support our business strategy whilst discouraging inappropriate risk taking and appropriately rewarding staff and is guided by the following principles:

- Remuneration is set at appropriate levels and is benchmarked against the external market place
- A total remuneration philosophy is operated wherein the Bank seeks to balance short term considerations against alignment of interest with shareholders
- Remuneration is designed to promote effective risk management, consistent with the Group's stated risk appetite
- Performance measures and targets are stretching, aligned with shareholder interests and linked to business strategy and objectives
- Compliance with the regulatory environment is mandatory

2016 activity

The Committee's activity during the year included:

- Approval of updates to the regulatory Remuneration Policy Statement and categorisation of Code Staff
- Annual review of staff salaries in conjunction with a salary benchmarking survey
- Review and approval of share scheme awards for executives and performance assessment against targets for DABS
- Review and approval of Executive Directors remuneration including leavers and joiners
- Review and approval of the remuneration of the Chairman of the Board
- Approval of the bonus pool and discretionary bonuses for senior staff including leavers and joiners
- Approval of share option awards to senior and key staff

Remuneration report

In order to set remuneration levels the Group assesses the extent to which targets have been met and performance achieved. Total remuneration includes salary, car allowance, annual discretionary bonus, pension contributions and long-term incentives. In line with the Group's Remuneration and Benefits Policy performance measures and targets are linked to business objectives.

These targets are robust and measured on a consistent and regular basis. Long-term incentives are designed with external expert advice and in keeping with relevant industry best practice. The Group does not apply a formulaic approach to remuneration on the grounds that this could encourage inappropriate risk taking. The pay-out levels depend on the performance of the Group, the relevant business units and the individual; forfeiture and claw-back mechanisms operate where appropriate and consistent with Sharia'a law.

A discretionary bonus forms part of the Group's remuneration package. For senior executives and staff designated as Material Risk Takers a portion of the annual discretionary bonus is deferred (and subject to forfeiture on leaving employment unless classified as a good leaver) over a three year period into the Deferred Annual Bonus Scheme ("DABS") with future pay-outs linked to the share price performance of the parent company. Due to the disappointing financial performance in 2016, the Committee has decided that no discretionary cash bonus awards or deferred annual bonus awards will be paid or awarded in connection with 2016 performance.

The Group has Shareholder approval to make awards up to an aggregate maximum of 10% of the parent company's issued share capital over a 10 year period from the date of the Dubai Nasdaq listing in October 2013. In order to align and retain the Senior Management team and key staff across the Bank with the newly articulated strategy, the Remuneration Committee approved the award of approximately 3.6% of issued share capital as options under the Bank's USOP scheme to senior management and key staff. Such awards were made in December 2016 and are subject to vesting over a 5 year period. Vesting of awards will also be subject to the Committee's discretionary assessment as to whether performance was achieved within the risk appetite of the firm, based on feedback from the Chief Risk Officer, the Chief Compliance Officer and the Board Risk Committee. Approval was given to a second award, of similar scale, after communication of the Bank's results in March 2017.

Awards made in 2016 across all equity-settled share schemes totalled the equivalent of 5.2% of the issued share capital (2015: 2.1%) and the total number of equity-settled options in issue as at 31 December 2016, less shares already held by the EBT, represented 6.4% of the issued share capital (31 December 2015: 3.3%).

Neil Holden
Chairman, Board Remuneration Committee
15 March 2017

Additional information on the structure of our share-based payment schemes and all awards made under these schemes is provided in the Share-based payments note on pages 65 to 69.

Statement of Directors' responsibilities
In respect of the annual report and financial statements

The Directors are responsible for preparing the Strategic report, the Directors' report and the Group and the Parent company financial statements, in accordance with applicable laws and regulations.

Company law requires the Directors to prepare the Group and the Parent company financial statements for each financial year. Under that law the Directors have elected to prepare both the Group and the Parent company financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the EU and applicable law.

Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and Parent company and of their profit or loss for that period.

In preparing each of the Group and Parent company's financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently
- make judgements and estimates that are reasonable and prudent
- state whether they have been prepared in accordance with IFRS as adopted by the EU
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Group and Parent company will continue in business

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Parent company's transactions and disclose with reasonable accuracy at any time the financial position of the Parent company and enable them to ensure that its financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Group and to prevent and detect fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Bank's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Independent auditor's report

To the members of Bank of London and The Middle East plc

We have audited the financial statements of Bank of London and The Middle East plc for the year ended 31 December 2016 set out on pages 28 to 130. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRS) as adopted by the EU and, as regards the Parent company's financial statements, as applied in accordance with the provisions of the Companies Act 2006.

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in such an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditor

As explained more fully in the Statement of Directors' Responsibilities set out on page 25, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit, and express an opinion on, the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

A description of the scope of an audit of financial statements is provided on the Financial Reporting Council's website at www.frc.org.uk/auditscopeukprivate.

Opinion on financial statements

In our opinion:

- the financial statements give a true and fair view of the state of the Group's and of the Parent company's affairs as at 31 December 2016 and of the Group's loss for the year then ended;
- the Group financial statements have been properly prepared in accordance with IFRS as adopted by the EU;
- the Parent company financial statements have been properly prepared in accordance with IFRS as adopted by the EU and as applied in accordance with the provisions of the Companies Act 2006; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion the information given in the Group Strategic report and the Directors' report for the financial year is consistent with the financial statements.

Based solely on the work required to be undertaken in the course of the audit of the financial statements and from reading the Group Strategic report and the Directors' report:

- we have not identified material misstatements in those reports; and
- in our opinion, those reports have been prepared in accordance with the Companies Act 2006.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors’ remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Consolidated statement of cash flows

For the year 1 January 2016 to 31 December 2016

	2016	2015
	£000	£000
Cash flows from operating activities		
Loss for the year before tax	(18,884)	(8,397)
Adjusted for:		
Exchange differences	711	(529)
Fair value losses / (gains) on investment properties	40	(4,707)
Fair value losses on investments	202	157
Adjustments to cash flow hedge reserve	2,305	-
Gains on disposal of intangible assets	-	(33)
Provision for impairment	15,843	20,659
Depreciation and amortisation	7,888	12,812
Losses / (gains) on disposal of property and equipment	-	(896)
Share-based payment awards	171	166
Mark to market movement in profit rate swaps	(250)	1,667
Loss on disposal of group company	1,720	-
	9,746	20,899
Net decrease / (increase) in operating assets:		
Due from financial institutions	(77,443)	163,814
Due from customers	-	5,038
Financing arrangements	126,909	75,398
Finance lease receivables	44,190	(128,506)
Operating lease assets	6,407	(152)
Other assets	12,865	(15,740)
	112,928	99,852
Net (decrease) / increase in operating liabilities:		
Due to financial institutions	(131,306)	66,469
Due to customers	(108,712)	(149,873)
Third party interest in consolidated funds	(9,247)	2,882
Other liabilities	6,390	(7,579)
	(242,875)	(88,101)
Corporation tax received / (paid)	1,003	(200)
Net cash outflow from operating activities	**(119,198)**	**32,450**
Cash flows from investing activities		
Purchase of property and equipment	8	(1,012)
Purchase of intangible assets	(372)	(1,229)
Purchase of investment properties	-	(3,860)
Sale of investment properties	26,750	10,357
Purchase of investments	(56,808)	(188,627)
Sale of investments	167,408	176,926
Cash outflow upon deconsolidation of subsidiary	(1,705)	-
Net cash outflow from investing activities	**135,281**	**(7,445)**
Subscriptions to consolidated funds	4,680	30,557
Redemptions from consolidated funds	(43,639)	(14,854)
Net cash outflow from financing activities	**(38,959)**	**15,703**
Net change in cash and cash equivalents	**(22,876)**	**40,708**
Cash and cash equivalents at the beginning of the year	88,732	45,993
Exchange differences in respect of cash and cash equivalents	5,296	2,031
Cash and cash equivalents at the end of the year	**71,152**	**88,732**

The notes on pages 38 to 130 are an integral part of these consolidated financial statements.

Bank statement of cash flows

For the year 1 January 2016 to 31 December 2016

	2016	2015
	£000	£000
Cash flows from operating activities		
Loss for the year before tax	(19,023)	(8,731)
Adjusted for:		
Exchange differences	722	(529)
Fair value losses / (gains) on investments	202	(2,049)
Adjustments to cash flow hedge reserve	2,053	-
Provision for impairment	15,791	20,591
Depreciation and amortisation	5,199	7,128
Losses / (gains) on sale of property and equipment	-	(896)
Share-based payment awards	171	166
(Gains) / losses on sale of intangible assets	-	(33)
Mark to market movement in profit rate swaps	(250)	1,667
Amortisation of future swap present value	-	(75)
Gain on other asset	-	(608)
Loss on disposal of investment	1,353	-

Fair value reserve includes the cumulative net change in fair value of available-for-sale investments until the investment is either derecognised or becomes impaired. The change in fair value of AFS financial assets includes a £1.2 million adjustment relating to fair value hedging. During 2016, management identified that fair value movements in hedging instruments relating to the fair value risk being hedged were recorded against financing arrangements rather than being recognised against the fair value reserve. More detail is provided in note 9.

Cash flow hedging reserve: during the year, the Group identified that cash flow hedge accounting had not been appropriately adopted as the hedging transactions did not satisfy the criteria for hedge accounting under IAS 39. This was corrected in the current year and more detail is provided in note 9.

Capital contribution: The share-based payment reserve in prior years represented the amortised portion of the fair value of equity instruments issued under the BLME share incentive schemes and accounted for as equity-settled share-based payments. During 2013, the Deferred Annual Bonus Scheme ("DABS") was reclassified back from cash-settled to equity-settled accounting and the obligations under all the BLME share incentive schemes were assumed by BLME Holdings plc for no consideration. This assumption of liability was treated as an injection of equity and recognised as a capital contribution in 2013. Certain vested DABS obligations were settled by BLME in cash during 2014 therefore reducing the capital contribution. The transfer to retained earnings represents the recycling of credits previously recognised within the Share Based Payment Reserve in relation to DABS options which have been settled, have forfeited or have lapsed.

Foreign currency translation reserve comprises all foreign exchange differences arising from the translation of the financial statements of foreign operations.

The notes on pages 38 to 130 are an integral part of these consolidated financial statements.

Notes to the consolidated financial statements

Reporting entity
Bank of London and The Middle East plc ("BLME" or the "Bank") is a company domiciled in the United Kingdom. The address of the Company's registered office is Cannon Place, 78 Cannon Street, London, EC4N 6HL. BLME is an independent wholesale bank involved in investment, corporate banking, private client banking and asset management. The consolidated financial statements of the Group for the year ended 31 December 2016 comprise the Bank and its subsidiaries (together referenced as "the Group").

The following terms are used in the financial statements:

Murabaha

A Murabaha contract is a deferred sale of goods at cost plus an agreed profit mark-up under which one party purchases goods from a supplier and sells the goods to another party at cost price plus an agreed mark-up. The delivery of the goods is immediate whilst payment is deferred. Murabaha has a variety of applications and is often used as a financing arrangement, for instance for working capital and trade finance.

Commodity Murabaha

A Commodity Murabaha contract (a subset of Murabaha) is often used as a liquidity management tool by financial institutions. The Commodity Murabaha is today the mainstay of the Islamic interbank short term liquidity market. In these transactions the commodity, usually a London Metal Exchange base metal, is sold on a deferred basis with a mark-up. The mark-up is close to conventional money market levels.

Wakala

Wakala means agency and is often used in an arrangement where one party (the principal) places funds with another (the agent). The agent invests funds on the behalf of the principal for an agreed fee or profit share.

Ijara

An Ijara is a contract allowing the granting of the right to use an asset by one party to another which equates to the leasing of an asset in return for rental payments. Ijara is typically used for medium to long term financing of real estate, equipment, machinery, vehicles, vessels or aircraft.

Mudaraba

A Mudaraba is a partnership contract in which a capital owner (Rab al Mal) enters into a contract with a partner (Mudarib) to undertake a specific business or project. The Mudarib provides the labour or expertise to undertake a business or activity. Profits are shared on a pre-agreed ratio but losses are borne by the Rab al Mal unless negligence of the Mudarib is demonstrated.

Musharaka

An agreement under which the Islamic bank provides funds which are mingled with the funds of the business enterprise and others. All providers of capital are entitled to participate in the management but not necessarily required to do so. The profit is distributed among the partners in predetermined ratios, while the loss is borne by each partner in proportion to his/her contribution.

Sukuk

Sukuk (also referred to as Islamic bonds) are certificates that reflect ownership in an underlying asset. Profits are calculated according to the performance of the underlying asset or project. Sukuk are usually issued by Structured Entities (“SE”) which are set up to acquire and to issue financial claims on the assets. Such financial claims represent a proportionate beneficial ownership for a defined period when the risk and the return associated with cash-flows generated by the underlying asset are passed to the Sukuk holders. Sukuk are commonly used as funding and investment tools.

Istisna

An Istisna contract is usually used for construction finance. The asset is not in existence at the start of the contract and is built or manufactured according to detailed specifications defined by the client, and delivered at the agreed date and price. Payment is deferred. Istisna contracts are commonly applied in project finance, construction finance and pre-export finance where the bank acts as an intermediary between the producer and the ultimate client.

Profit rate swaps

A profit rate swap is a contract between two parties where each counterparty agrees to pay either a fixed or floating rate denominated in a particular currency to the other counterparty providing a means of exchanging fixed rate profit rate risk for floating rate risk – or vice versa.

Participation agreement

A participation agreement is an agreement executed between the relevant SE and the Bank. The main objective of this agreement is to facilitate the required funding to enable the SE to acquire leased assets or investment property and to convey the beneficial ownership of the leased equipment or investment property to the Bank. Under this agreement the risks and rewards are transferred to the Bank and the SE is indemnified against actual losses that arise as a result of any lease or investment property transaction it enters into except in cases where it misappropriates any funds.

1. Basis of preparation

a. Presentation of financial statements

The Group and Bank have prepared their financial statements in accordance with International Financial Reporting Standards (“IFRS”) as adopted by the EU and effective for the Group’s reporting for the year ended 31 December 2016. IFRS comprise accounting standards issued by the International Accounting Standards Board (“IASB”) and its predecessor body as well as interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”) and its predecessor body.

The preparation of financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. The results form the basis for making judgements about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of IFRS that have a significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year are discussed in Note 3 and Note 36.

All amounts have been rounded to the nearest thousand except when otherwise indicated.

The Directors have reviewed the business activities and financial position of the Group and have a reasonable expectation that it has adequate resources to continue in operational existence for the foreseeable future. In making this assessment the Directors have considered a wide range of information about the current and future condition of the Group including the strategic direction, activities and risks that affect the financial position.

The financial performance in 2015 and 2016 has been very disappointing, however, the Board re-assessed the Group's risk management framework early in 2016 and has now developed a clear strategy and implementation plan to return the Group to profitability. Reducing the cost: income ratio is a key driver and the Board has already identified a number of areas that will result in Q1 2017 savings whilst also providing an appropriate platform from which the Bank's strategy can be executed. The Directors have also assessed the 2017 budget and forecasts with comfort drawn from the Bank's Liquid Asset Buffer, robust capital position and the strong relationships between the Group and its liquidity providers. Furthermore, the Directors have assessed how the low oil price environment has affected the Group's major funders and noted that the impact has been minimal to date.

The result of the UK's referendum on EU membership is considered to be an area of opportunity for the Bank. However, given the uncertainties across the global economy, management assessed and stress-tested a number of scenarios in the run-up to the vote. Accordingly the immediate impact of the result was appropriately managed and is being monitored on a frequent basis.

For these reasons the financial statements have been prepared on a going concern basis.

b. New standards and interpretations adopted

The following new standards or amendments to standards were effective from 1 January 2016 but have not had a significant – or any – impact on the Groups measurement or disclosures:

- IFRS 14 Regulatory Deferral Accounts
- Accounting for Acquisitions of Interests in Joint Operations (Amendments to IFRS 11)
- Clarification of Acceptable Methods of Depreciation and Amortisation (Amendments to IAS 16 and IAS 38)
- Agriculture: Bearer Plants (Amendments to IAS 16 and IAS 41)
- Equity Method in Separate Financial Statements (Amendments to IAS 27)
- Annual Improvements to IFRSs 2012-2014 Cycle – various standards
- Investment Entities: Applying the Consolidation Exception (Amendments to IFRS 10, IFRS 12 and IAS 28)
- Disclosure Initiative (Amendments to IAS 1)

c. New standards and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2016, and have not been applied in preparing these consolidated financial statements. Those that may be relevant to the Group are set out below. The Group does not plan to adopt any of these standards early, where adopted by the EU and permitted.

i. IFRS 9 Financial Instruments

IFRS 9 will replace the existing standard on the recognition and measurement of financial instruments (IAS 39) and is effective for annual periods beginning on or after 1 January 2018. The Group does not plan to adopt this standard early.

The actual impact of adopting IFRS 9 on the Group's consolidated financial statements in 2018 is not known and cannot be reliably estimated because it will be dependent on the financial instruments that the Group holds and economic conditions at that time as well as accounting elections and judgements that it will make in the future. The new standard will require the Group to revise its accounting processes and internal controls related to reporting financial instruments and these changes are not yet complete. The Group is in the process of evaluating the impact of adopting this standard; updates have been provided on a regular basis to the Audit Committee explaining the considerations required.

Classification

IFRS 9 contains a new classification and measurement approach for financial assets that reflects the business model in which assets are managed and their cash flow characteristics.

IFRS 9 contains three principal classification categories for financial assets: measured at amortised cost, fair value through other comprehensive income ("FVOCI") and fair value through profit or loss ("FVTPL"). The standard eliminates the existing IAS 39 categories of held to maturity, loans and receivables and available for sale.

Management is still in the process of assessing the impact of IFRS 9 on the classification and measurement of financial assets and impairment of financial assets.

With regards to financial liabilities, IFRS 9 largely retains the existing requirements of IAS 39 for the classification of financial liabilities. However, under IAS 39 all fair value changes of liabilities designated at FVTPL are recognised in profit or loss, whereas under IFRS 9 these fair value changes are generally presented as follows:

- the amount of change in the fair value that is attributable to changes in the credit risk of the liability is presented in OCI; and
- the remaining amount of change in the fair value is presented in profit or loss.

The Group has not designated any financial liabilities at FVTPL and the Group has no current intention to do so; consequently management does not expect this to have a material impact on the Group's consolidated financial statements when transitioning to IFRS 9.

Impairment

IFRS 9 replaces the 'incurred loss model' under IAS 39 with a forward-looking expected credit loss ("ECL") model. This will require significant judgement as to how changes in economic factors affect ECLs, which will be determined on a probability-weighted basis. The new impairment model will apply to financial assets measured at amortised cost or FVOCI, except for investments in equity instruments, and to contract assets. It will also apply to finance lease receivables, trade receivables and off-balance sheet commitments.

Under IFRS 9, loss allowances will be measured on either of the following bases:

- 12-month ECLs. These are ECLs that result from possible default events within the 12-months after the reporting date; and
- Lifetime ECLs. These are ECLs that result from all possible default events over the expected life of a financial instrument.

Lifetime ECL measurement applies if the credit risk of a financial asset at the reporting date has increased significantly since initial recognition and 12-month ECL measurement applies if it has not. An entity may determine that a financial asset's credit risk has not increased significantly if the asset has low credit risk at the reporting date.

The Group believes that impairment losses are likely to increase and become more volatile for assets in the scope of the IFRS 9 impairment model, since all financial assets will be assessed for at least 12-month ECL and the population of financial assets to which lifetime ECL applies is likely to be larger than the population for which there is objective evidence of impairment in accordance with IAS 39 as applied in our current impairment assessment.

Transition and disclosure

Changes in accounting policies resulting from the adoption of IFRS 9 will generally be applied retrospectively, except as described below:

- the Group plans to take advantage of the exemption allowing it not to restate comparative information for prior periods with respect to classification and measurement (including impairment) changes. Differences in the carrying amounts of financial assets and financial liabilities resulting from the adoption of IFRS 9 generally will be recognised in retained earnings and reserves as at 1 January 2018;
- new hedge accounting requirements should generally be applied prospectively however the Group may elect to apply the expected change in accounting for forward points retrospectively. The Group has not made a decision in relation to this election.
- the following assessments have to be made on the basis of facts and circumstances that exist at the date of initial application:
    - the determination of the business model within which a financial asset is held;
    - the designation and revocation of previous designations of certain financial assets and financial liabilities as measured at FVTPL (if any); and
    - the designation of certain debt securities and equity investments not held for trading as at FVOCI.

IFRS 9 will require extensive new disclosures, in particular about hedge accounting, credit risk and expected credit loss.

ii. IFRS 15 Revenue from Contracts with Customers

IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue from customers is recognised (except for contracts that are within the scope of the accounting standards on leases, insurance contracts and financial instruments). The standard introduces a five-step model to determine when to recognise revenue and at what amount; the model specifies that revenue should be recognised when (or as) an entity transfers control of goods or services to a customer at the amount to which the entity expects to be entitled.

The mandatory effective date is 1 January 2018 and the Group does not plan to adopt this standard early. Management is performing a detailed assessment of the impact resulting from the application of IFRS 15 and expects to disclose additional quantitative information before the Group adopts IFRS 15.

iii. IFRS 16 Leases

The new standard on leasing was issued in January 2016 with an effective date of 1 January 2019. The full impact of this standard is being assessed however the two most significant areas are likely to be the following:

- Lessee accounting model: there will be a single accounting model with no lease classification test. All leases will be on-balance sheet and will result in the recognition of a right of use asset representing the lessees right to use the underlying asset and a lease liability representing its obligation to make payments.

- Lessor accounting model: the lease classification test will be based on existing IAS 17 criteria. Consideration will, however, be required in relation to lease modifications.

The Group has started an initial assessment of the potential impact on its consolidated financial statements. So far, the most significant impact identified is that the Group will recognise new assets and liabilities for its operating leases in relation to office premises. In addition, the nature of expenses related to those leases will now change as IFRS 16 replaces straight-line operating lease expense with a depreciation charge for right-of-use assets and financing expense on lease liabilities. Furthermore, the Group will need to consider the impact of its leases in relation to company cars and any leased computer/office equipment although there are optional exemptions for short-term leases and leases of low value items. An element of the full impact analysis will consider which transition approach to apply (retrospective or modified retrospective with optional practical expedients).

IFRS 16 replaces existing leases guidance including IAS 17, IFRIC 4, SIC-15 and SIC-27. The Group does not plan to adopt this standard early.

d. Basis of consolidation

i. Subsidiaries

Subsidiaries are investees controlled by the Bank. The Company 'controls' an investee if it is exposed to, or has rights to, variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The financial statements of the subsidiaries are included in the consolidated financial statements from the date the control commences until the date control ceases (see Note 33).

ii. Structured Entities ("SE")

An SE is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, for example when any voting rights relate to administrative tasks only, and key activities are directed by contractual agreement. Structured entities often have restricted activities and a narrow and well defined objective (see Note 33).

iii. Employee Benefit Trust ("EBT")

An EBT acts as an agent for the purpose of the employee share-based compensation plans. Accordingly, the EBT is included within the Group's consolidated financial statements.

iv. Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognised in the income statement.

e. Consolidation of foreign operations

All assets and liabilities of foreign consolidated companies and other entities with a functional currency other than Sterling are translated using the exchange rates in effect at the balance sheet date.

Income and expenses are translated at the average exchange rate for the period. Translation differences arising from the application of this method are classified in equity until the disposal of the investment. Average rates of exchange are used to translate the cash flows of foreign subsidiaries in preparing the consolidated statement of cash flows.

f. Basis of measurement

The financial statements have been prepared on the historical cost basis, except for investment property and financial instruments, specifically investment securities and profit rate swaps, which are stated at their fair value. Financial instruments are recognised on a trade date basis.

g. Functional and presentation currency

The financial statements are presented in Sterling, which is also the Bank's functional currency. Supplementary information has been provided in Notes 9, 13, 19, 29, 33, 34 and 36 to enhance the understanding of the reader. The method of translation is explained in the foreign currency note.

2. Significant accounting policies

a. Foreign currency

Transactions in foreign currencies are translated to the functional currency at the exchange rate ruling at the date of each transaction. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the exchange rate ruling at that date. Foreign currency differences arising on translation are recognised in the income statement.

Non-monetary assets and liabilities, which are measured at historical cost, are translated into the functional currency at the effective historical rate used on the date of initial recognition. Foreign exchange for non-monetary items measured at fair value is determined at the spot rate at the time the fair value is determined. The associated foreign exchange differences for non-monetary assets and liabilities go to the same place that the gains and losses are booked to, i.e. other comprehensive income or the income statement.

b. Revenue recognition

i. Murabaha, Wakala, Mudaraba, Sukuk, Ijara, Istisna and Participation Agreement income and expense

Profits and costs are recognised in the income statement throughout the period of the contract using the 'effective profit share' basis. The 'effective profit share rate' is the rate that exactly discounts the estimated future cash payments and receipts through the agreed payment term of the contract to the carrying amount of the financial asset or liability. When calculating the effective profit rate, BLME estimates future cash flows considering all contractual terms of the financial instrument, but not future credit losses.

The Bank has an available-for-sale Sukuk portfolio. Sukuk reported by the Group as a result of the consolidation of the BLME Sharia'a Umbrella Fund SICAV-SIF have been classified under the fair value option as investment securities at "fair value through profit and loss". Any fair value gain or loss is accounted for in the consolidated income statement in the line "net fair value gains on investment securities".

ii. Fees and commission

Fees and commission which are not recognised on an effective yield basis over the life of the financial instruments to which they relate, such as fees for negotiating transactions for third parties, underwriting fees and commission, and non-discretionary asset management fees are recognised in revenue when it is probable that the economic benefit will flow to the Bank. This will normally be at the point when the activity to which the fees and commission relate has been completed.

c. Financial assets and financial liabilities

The Bank classifies its financial assets in the following categories: 'due from financial institutions'; 'financing arrangements'; and 'investment securities'. Investment securities can be either financial assets at fair value through profit and loss, available-for-sale or held to maturity financial assets. Management determines the classification of financial assets and liabilities at initial recognition.

Financial assets are designated upon initial recognition as fair value through profit and loss, if the financial asset is managed and its performance evaluation is on a fair value basis.

i. Due from financial institutions and financing arrangements

Due from financial institutions and financing arrangements are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and which are not classified as available-for-sale. These assets are initially recognised at fair value including direct and incremental transaction costs. These are subsequently measured at amortised cost using the effective profit share basis and any impairment losses are deducted.

ii. Investment securities

- **Financial instruments at fair value through profit or loss**

Financial assets are classified in this category if they are held for trading, or if they are designated by management under the fair value option. Financial assets are designated at fair value through profit or loss if the Bank manages such investments and makes purchase and sale decisions based on their fair value in accordance with the Group's documented risk management or investment strategy.

- **Available-for-sale**

Available-for-sale assets are either debt or equity non-derivative financial assets that are designated as available-for-sale ("AFS"). The assets are intended to be held for an indefinite period of time, but may be sold in response to liquidity requirements or changes in profit rates, exchange rates or equity prices. They are initially recognised at fair value including direct and incremental transaction costs. They are subsequently held at fair value. Gains and losses arising from changes in the fair value of AFS financial assets, other than foreign exchange gains and losses from monetary items, are recognised directly within a separate component of equity, until the financial assets are derecognised or impaired at which time the cumulative gain or loss previously recognised within equity is transferred to the income statement. For debt instruments, income is determined using the effective profit share rate and recognised in the income statement. Dividends on equity instruments are recognised in the income statement when the Group's right to receive payment is established.

- **Held to maturity**

Held to maturity assets are initially measured at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, they are measured at amortised cost less impairment losses.

iii. Offsetting financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

iv. Derecognition of financial assets

Financial assets are derecognised when the rights to receive cash flows from the assets have expired; or where the Group has transferred its contractual right to receive the cash flows of the financial assets and either:

- substantially all the risks and rewards of ownership have been transferred; or
- substantially all the risks and rewards have neither been retained nor transferred but control is not retained.

Financial liabilities are derecognised when they are extinguished, i.e. when the obligation is discharged or cancelled or expires.

v. Impairment of financial assets and forbearance

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or portfolio of financial assets is impaired. A financial asset or a portfolio of financial assets is impaired and impairment losses are incurred if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or portfolio of financial assets that can be reliably estimated.

Objective evidence that a financial asset or portfolio of assets is impaired includes observable data that comes to the attention of the Group about the following loss events:

i. significant financial difficulty of the issuer or obligor
ii. a breach of contract, such as default or delinquency in profit or principal payments
iii. the Group granting to the client, for economic or legal reasons relating to the client's financial difficulty, a concession that the financier would not otherwise consider
iv. it becoming probable that the client will enter bankruptcy or other financial reorganisation
v. the disappearance of an active market for that financial asset because of financial difficulties
vi. observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the portfolio, including:

- adverse changes in the payment status of clients in the portfolio; or
- national or local economic conditions that correlate with defaults on the assets in the portfolio.

The Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a portfolio of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

In assessing collective impairment, the Group uses historical information on the timing of recoveries, the amount of loss incurred and an estimated emergence period. The emergence period is assessed using historical information as a proxy together with an assessment of current factors that may affect our customers. The emergence period used also considers the maturity profiles of each financial asset within the collective impairment portfolio. Management also estimates a probability of default and loss given default across the business divisions using external ratings companies and data. Note 3a provides further information on the areas of estimation uncertainty inherent in calculating a collective impairment charge.

The Group writes off a facility or an investment security, either partially or in full, and any related allowance for impairment losses, when management (including the relevant Board Committees) determines that there is no realistic prospect of recovery.

- **Forbearance**

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the customer, then an assessment is made of whether the financial asset should be derecognised. If the cash flows of the renegotiated asset are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised and the new financial asset is recognised at fair value. The impairment loss before an expected restructuring is measured as follows.

- if the expected restructuring will not result in derecognition of the existing asset, then the estimated cash flows arising from the modified financial asset are included in the measurement of the existing asset based on their expected timing and amounts discounted at the original effective profit rate of the existing financial asset; or
- if the expected restructuring will result in derecognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. This amount is discounted from the expected date of derecognition to the reporting date using the original effective profit rate of the existing financial asset.

Further disclosures on forbearance can be found on pages 111 to 113 in Note 36.

- **Assets carried at amortised cost**

If there is objective evidence that an impairment loss on exposures and receivables has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective profit rate. The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognised in the income statement. If a facility balance has a variable profit rate, the discount rate for measuring any impairment loss is the current effective profit rate determined under the contract.

The calculation of the present value of the estimated future cash flows of a collateralised financial asset reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral, whether or not foreclosure is probable.

- **Available-for-sale assets**

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a portfolio of financial assets is impaired. In the case of equity investments classified as available-for-sale ("AFS"), a significant or prolonged decline, typically greater than 20% or over nine months, in the fair value of the security below its cost is considered evidence of impairment. If any such evidence exists for AFS equity instruments, the cumulative loss, measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that equity instrument previously recognised in profit or loss, is removed from equity and recognised in the income statement. Impairment losses recognised in the income statement on equity instruments are not reversed through the income statement.

In the case of AFS debt instruments, impairment is assessed against the impairment indicators discussed in detail on page 46. If there is objective evidence that an impairment loss has occurred, the cumulative loss, measured as the difference between the asset's amortised cost and current fair value, less any impairment loss on the debt instrument previously recognised in the income statement, is removed from equity and recognised in the income statement. If, in a subsequent period, the fair value of a debt instrument classified as AFS increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss is reversed through the income statement. There were no reversals in 2016 (2015: none).

vi. Financial liabilities

Financial liabilities include funds received from financial institutions and customers. These are initially measured at fair value less the transaction costs that are directly attributable to the acquisition of the financial liability. All financial liabilities are subsequently measured at amortised cost using the effective profit share rate payable to the deposit holders. Financial liabilities are derecognised only when the obligations specified in the contract are discharged, cancelled or expired.

vii. Determining fair value

If an asset or a liability measured at fair value has a bid price and an ask price, then the Group measures assets and long positions at a bid price and liabilities at an ask price. Where no active market exists for the particular asset or liability, the Bank uses another valuation technique to arrive at the fair value, including the use of prices obtained in recent arms-length transactions, discounted cash flow analysis and other valuation techniques commonly used by market participants (see Note 3b).

viii. Derivatives and hedge accounting

Derivatives are recognised initially, and are subsequently re-measured, at fair value. Fair values of over-the-counter derivatives (profit rate swaps) are obtained using valuation techniques, including discounted cash flow models.

Derivatives are classified as assets when their fair value is positive or as liabilities when their fair value is negative. Derivative assets and liabilities arising from different transactions are only offset if the transactions are with the same counterparty, a legal right of offset exists and the parties intend to settle the cash flows on a net basis.

The method of recognising fair value gains and losses depends on whether derivatives are held for trading or are designated as hedging instruments and, if the latter, the nature of the risks being hedged. When derivatives are designated as hedges, BLME classifies them as either: (i) hedges of the change in fair value of recognised assets or liabilities or firm commitments (‘fair value hedges’); or (ii) hedges of the variability in highly probable future cash flows attributable to a recognised asset or liability, or a forecast transaction (‘cash flow hedges’). Hedge accounting is applied to derivatives designated as hedging instruments in a fair value hedge or cash flow hedge provided certain criteria are met.

- **Hedge accounting**

At the inception of a hedging transaction, the Group documents the relationship between the hedging instruments and the hedged items, as well as its risk management objective and its strategy for undertaking the hedge. The Group policy also requires a documented assessment, both at the hedge inception and on an on-going basis, of whether or not the hedging instruments, primarily profit rate swaps, that are used in hedging transactions are highly effective in offsetting the changes attributable to the hedged risks in the fair values or cash flows of the hedged items. Ineffective changes in profit share on designated qualifying hedges are included in ‘Other operating income / expenses’ as applicable.

Fair value hedge

Changes in the fair value of derivatives that are designated and qualify as fair value hedging instruments are recorded in the income statement, along with changes in the fair value of the hedged assets, liabilities or group thereof that are attributable to the hedged risk. Any gain or loss in fair value relating to the hedged item is recognised in “Net fair value gains / losses on investment securities” whilst any gain or loss in fair value relating to the hedging instrument is recognised in “Other operating income / expenses” as applicable.

If the hedging relationship no longer meets the criteria for hedge accounting, the cumulative adjustment to the carrying amount of a hedged item for which the effective yield method is used, is amortised to the income statement over the residual period to maturity.

During 2016, management identified that fair value movements in hedging instruments relating to the fair value risk being hedged were recorded against financing arrangements rather than being recognised against the fair value reserve. Refer to note 9.

Cash flow hedge

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in equity within the cash flow hedging reserve. Any gain or loss in fair value relating to an ineffective portion is recognised immediately in the income statement under "Other operating income / expenses" as applicable.

Amounts accumulated in equity are recycled to the income statement in the periods in which the hedged item will affect profit or loss. When a hedging instrument expires or is sold, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in equity until the forecast transaction is eventually recognised in the income statement. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in equity is immediately transferred to the income statement under "Other operating income / expenses" as applicable.

During 2016, the Group identified that cash flow hedge accounting had not been appropriately adopted as the hedging transactions entered into did not satisfy the criteria for hedge accounting under IAS 39. Refer to note 9.

- **Hedge effectiveness testing**

To qualify for hedge accounting, IAS 39 requires that at the inception of the hedge and throughout its life, each hedge must be expected to be highly effective (prospective effectiveness), and demonstrate actual effectiveness (retrospective effectiveness) on an on-going basis; BLME assesses this at inception (prospective effectiveness) and on a monthly basis (retrospective effectiveness). The documentation of each hedging relationship sets out how the effectiveness of the hedge is assessed.

For prospective effectiveness, the hedging instrument must be expected to be highly effective in achieving offsetting changes in fair value or cash flows attributable to the hedged risk during the period for which the hedge is designated. For actual effectiveness to be achieved, the changes in fair value or cash flows must offset each other in the range of 80 per cent to 125 per cent, for the hedge to be deemed effective.

- **Sharia'a compliant derivatives (hereafter described as profit rate swaps, "PRSs") that do not qualify for hedge accounting**

All gains and losses from changes in the fair values of PRSs that do not qualify for hedge accounting are recognised immediately in the income statement. These gains and losses are reported in 'Other operating income / expenses' as applicable.

d. Collateral and netting

The Bank enters into master agreements with counterparties whenever possible and, when appropriate, obtains collateral. Master agreements provide that, if an event of default occurs, all outstanding transactions with the counterparty will fall due and all amounts outstanding will be settled on a net basis.

- **Collateral**

The Bank obtains collateral in respect of customer advances where this is considered appropriate. The collateral normally takes the form of a lien over the customer's assets and gives the Bank a claim on these assets for both existing and future advances.

- **Netting**

Financial assets and liabilities are offset and the net amount reported in the balance sheet if, and only if, there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or to realise and settle an asset and a liability simultaneously.

e. Investment property

Properties held for long term rental yields not occupied by the Group are classified as investment property. This category includes investment properties reported by the Group as a result of the consolidation of the BLME Sharia'a Umbrella Fund SICAV-SIF. More detail is provided in Note 19 and Note 33.

The Group has elected to adopt the fair value model under IAS 40; as such investment property is measured initially at cost, including related transaction costs. After initial recognition, investment property is carried at fair value. Fair value is based on active market prices, adjusted, if necessary, for any differences in the nature, location or condition of the specific asset. If this information is not available, the Group uses alternative valuation methods such as recent prices on less active markets or discounted cash flow projections. These valuations are conducted annually by independent external professionally qualified valuation agents.

The fair value of investment property reflects, among other things, rental income from current leases and assumptions about rental income from future leases in the light of current market conditions.

Subsequent expenditure is charged to the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are charged to the income statement during the financial period in which they are incurred. Changes in fair value are recorded in the income statement within "Net fair value gains / (losses) on investment property".

f. Property and equipment

i. Recognition and measurement

Items of property and equipment are measured at cost less accumulated depreciation and impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset.

ii. Depreciation

Depreciation is recognised in the income statement on a straight line basis over the estimated useful life of each part of an item of property and equipment. Leased assets are depreciated over the shorter of the lease term and their useful lives.

- Computer equipment – 3 years
- Fixtures and fittings – 4 years
- Office equipment – 3 years
- Motor vehicles – 4 years
- Leasehold improvements – 4 years or over the life of the lease, whichever is shorter

Depreciation methods, useful lives and residual values are reassessed at the reporting date.

g. Intangible assets

Intangible assets consist of computer licences and software development costs. Intangible assets acquired by the Bank are stated at cost less accumulated amortisation and accumulated impairment losses, if any.

Subsequent expenditure on software assets is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

Amortisation is recognised in the income statement on a straight line basis over the estimated useful life of the software and computer licences, from the date that they are available for use. The estimated useful life of software and computer licences is three years.

h. Impairment of property and equipment, intangible assets and operating leases

At each balance sheet date, or more frequently where events or changes in circumstances dictate, property, equipment and intangible assets are assessed for indications of impairment. If indications are present, these assets are subject to an impairment review. An impairment loss is recognised if the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognised in the income statement.

The impairment review comprises a comparison of the carrying amount of the asset with its recoverable amount, which is taken as the higher of value in use or fair value less cost to sell. Value in use is calculated by discounting the expected future cash flows obtainable as a result of the assets continued use, including those resulting from its ultimate disposal, at a market based discount rate on a pre-tax basis.

i. Operating leases

- **Lessor**

  Assets leased to customers under agreements, which do not transfer substantially all the risks and rewards of ownership, are classified as operating lease assets on the balance sheet. Depreciation is taken on the depreciable amount of these assets on a straight line basis over their estimated useful lives. Lease income is recognised on a straight line basis over the period of the lease unless another systematic basis is more appropriate.

- **Lessee**

  Operating lease rentals payable by the Bank are recognised as an expense in the income statement on a straight line basis over the lease term unless another systematic basis is more appropriate.

j. Finance leases

Assets leased to customers under agreements which transfer substantially all the risks and rewards associated with ownership, other than legal title, are classified as finance leases. Finance charges receivable are recognised on the balance sheet and income is recognised over the period of the lease so as to give a constant rate of return on the net cash investment in the lease, taking into account all receipts associated with the lease.

Residual value exposure occurs in the leasing portfolio due to the uncertain nature of the value of the underlying asset at the end of the lease. Throughout the life of an assets, its residual value will fluctuate due to changes in asset usage, uncertainty of the future market for that asset and general economic conditions. Residual values are set at the commencement of the lease based upon management’s expectation of future sale proceeds. During the course of the lease, these values are monitored and compared to past history and future projections. Any impairment identified is immediately charge to the income statement.

k. Employee benefits

The Group operates a defined contribution pension scheme for all staff. A defined contribution plan is a pension plan under which the Group pays fixed contributions into a separate entity, and where the Group has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods. The Group pays contributions to Standard Life. The Group has no further payment obligations once the contributions have been paid. The contributions are recognised as an employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

Short-term employee benefits such as salaries, paid absences and other benefits are accounted for on an accruals basis over the period for which employees have provided services. Bonuses are recognised to the extent that the Bank has a present obligation to its employees that can be measured reliably.

l. Share-based payments

The Group operates equity-settled share-based incentive schemes for employees in conjunction with its ultimate parent undertaking, BLME Holdings plc. The cost of equity-settled share-based payment arrangements is measured by reference to the fair value of equity instruments on the date they are granted, and recognised as an expense on a straight line basis over the vesting period. The fair value of equity instruments that are made available immediately, with no vesting period attached to the award, are expensed immediately.

Fair value is determined by using appropriate valuation models, taking into account the terms and conditions upon which the equity instruments were granted. Market performance conditions are reflected as an adjustment to the fair value of equity instruments at the date of grant, so that an award is treated as vesting irrespective of whether the market performance condition is satisfied, provided all other conditions are satisfied.

Vesting conditions, other than market performance conditions, are not factored into the initial estimate of the fair value at the grant date. They are taken into account by adjusting the number of equity instruments included in the measurement of the transaction, so that the amount recognised for services received as consideration for the equity instruments granted shall be based on the number of equity instruments that eventually vest. On a cumulative basis, no expense is recognised for equity instruments that do not vest because of a failure to satisfy non-market performance or service conditions.

Where an award has been modified, as a minimum, the expense of the original award continues to be recognised as if it had not been modified. Where the effect of a modification is to increase the fair value of an award or increase the number of equity instruments, the incremental fair value of the award or incremental fair value of the extra equity instruments is recognised in addition to the expense of the original grant. The incremental fair value is calculated by comparing the fair value of the modified grant with the fair value of the original grant at the modification date. The incremental fair value of the modified grant is recognised over the remaining vesting period.

m. Own shares

Own shares are held by the EBT and comprise own shares that have not vested unconditionally to employees of the Group. In both the Group and Bank, own shares are recorded at cost and are deducted from retained earnings.

n. Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of cost of funds and, where appropriate, the risks specific to the liability.

o. Income tax (current and deferred tax)

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or in Other comprehensive income.

Current tax is the expected tax payable on the taxable income for the period, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on laws that have been enacted or substantively enacted by the reporting date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

p. Cash and cash equivalents

Cash and cash equivalents comprise demand deposits with banks held in non-interest earning accounts.

q. Other receivables

Trade and other receivables are stated at their nominal amount less impairment losses.

r. Segmental information

Segment results that are reported to the Group's Executive Committee (being the chief operating decision maker) include items that are directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly head office and back office expenses, other assets and deferred tax assets.

s. Investment in subsidiaries

The investments in subsidiary undertakings in the Bank's financial statements are stated at amortised cost less impairment. Investments in subsidiary undertakings are assessed for impairment where there is an indication of impairment. Where impairment exists, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss recognised in the statement of comprehensive income.

t. Business combinations and goodwill

The Group accounts for business combinations using the acquisition method when control is transferred to the Group. The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is measured at fair value.

Goodwill is tested annually for impairment and compares the carrying amount with the recoverable amount. The recoverable amount is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognised when the carrying amount of goodwill exceeds its recoverable amount. Impairment losses are recognised in profit and loss and are not reversed.

3. Use of critical accounting estimates, judgements in applying accounting policies and estimation uncertainty

a. Allowance for credit losses

Assets accounted for at amortised cost are evaluated monthly for impairment on a basis described in Note 2c (v) and Note 36a (v). In determining whether an impairment loss should be recorded in the income statement, the Group makes judgements as to whether there is any observable data indicating that there is a measurable decrease in the estimated future cash flows from individual financing arrangements. This evidence may include observable data indicating that there has been an adverse change in the payment status of counterparties in a portfolio, or national or local economic conditions that correlate with defaults on assets in the portfolio. The specific counterparty component of the total allowance for impairment applies to claims evaluated individually and is based upon management's best estimate of the present value of the cash flows that are expected to be received. In estimating these cash flows, management makes judgements about each counterparty's financial situation and the realisable value of any underlying collateral. Each impaired asset is assessed on its merits, and the present value of estimated cash flows considered recoverable is approved by the Counterparty Credit Risk Committee.

Collectively assessed impairment allowances cover credit losses inherent in portfolios of items with similar credit risk characteristics when there is objective evidence to suggest that they contain impaired items, but the individual impaired items cannot yet be identified. In assessing the need for collective loss allowances, management considers factors such as credit quality, portfolio size, concentrations and economic factors. In order to estimate the required allowance, assumptions are made to define the way inherent losses are modelled and to determine the required input parameters set out in Note 2 c v, based on historical experience and current economic conditions.

The Group considers its leasing, real estate, trade finance and corporate & structured finance portfolios to be individually significant.

b. Determining fair values

The Group's accounting policy on fair value measurements is in accordance with IFRS 13 Fair Value Measurement and is discussed in Note 36.

The Group measures fair values using the following fair value hierarchy that reflects the significance and observability of inputs used in making the measurements.

Level 1: Valuation is based upon quoted market price in an active market for an identical instrument. This category comprises Sukuk held at fair value through profit and loss and Sukuk held at fair value designated as available-for-sale.

Level 2: Valuation techniques are primarily based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). Valuation techniques are also based on unobservable inputs if they do not have a significant impact on the fair value measurement in its entirety. This category comprises profit rate swaps, which are valued using reference to observable market data such as yield curves, and investments in Sharia'a compliant funds.

Level 3: Valuation techniques using significant unobservable inputs; this category comprises unlisted equity investments valued by reference to third party valuations.

For financial instruments that trade infrequently and have little price transparency, fair value is less objective and requires varying degrees of judgement depending on liquidity, concentration, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument.

Fair values of financial assets and financial liabilities that are traded in active markets are based on quoted market prices or dealer price quotations. For all other financial instruments the Group determines fair values using other valuation techniques.

Valuation techniques include net present value and discounted cash flow models, comparison to similar instruments for which market observable prices exist, Black-Scholes and polynomial option pricing models and other valuation models. Assumptions and inputs used in valuation techniques include risk free and benchmark profit rates, credit spreads and other premia used in estimating discount rates, bond prices and foreign currency exchange rates. The objective of valuation techniques is to arrive at a fair value determination that reflects the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Group uses widely recognised valuation models in determining the fair value of common and more simple financial instruments, such as profit rate swaps, that use only observable market data and require little management judgement and estimation. Observable prices and model inputs are usually available in the market for listed debt and equity securities and simple over the counter derivatives such as profit rate swaps. Availability of observable market prices and model inputs reduces the need for management judgement and estimation and also reduces the uncertainty associated with determination of fair values. Availability of observable market prices and inputs varies depending on the products and markets and is prone to changes based on specific events and general conditions in the financial markets.

c. Effective profit rate adjustments

IAS 39 requires financial instruments to be recognised at the effective profit rate of the asset, which is considered to be the rate that exactly discounts estimated future cash flows through the expected life of the instrument. As the timing of certain cash flows is uncertain, judgement has been applied in estimating all contractual cash flows (profit rate income and fees).

d. Recognition of deferred tax assets

Deferred tax assets in relation to tax losses should only be recognised when it is probable that sufficient taxable profits will be available against which the unused tax losses can be utilised. Judgement has been applied in estimating the future profitability of the business and when considering whether these will be generated in a timely manner. During the year, management derecognised the deferred tax asset, which had primarily arisen as a result of tax losses carried forward from prior years. Management deemed it appropriate to de-recognise this asset on the basis of current and prior year losses and after an assessment of the timeliness of generating sufficient taxable profits against which the carried forward tax losses could be utilised.

e. Consolidation assessments

The Group consolidates subsidiaries and structured entities when management considers the Group to have power and control over the investee. Judgement has been applied in determining whether control has been established by considering if the company is exposed to, or has rights to, variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

4. Segmental information and Country-by-Country disclosures

The Group has three operating segments as described below, which are based on the Group’s strategic business divisions. The strategic business divisions offer different products and services and are managed separately based on the Group’s management and internal reporting structure. The following summary describes the operations of each of the Group’s reportable segments during the year:

Corporate Banking
Corporate Banking provides debt financing for UK mid-market companies ranging from FTSE250 companies to family owned businesses. Our facilities are provided by our specialist product teams covering: Leasing, Real Estate, Trade Finance and Corporate & Structured Finance. Facilities are either separate or offered as one package. We have provided senior financing syndicated facilities and have introduced financing counterparties from the GCC for additional capital.

Wealth Management
Wealth Management includes BLME’s complementary businesses of Private Banking and Asset Management. The Private Banking business focuses on providing private banking services, in particular, residential lending for central London property acquisitions, to high net worth individuals.

Treasury
The Treasury Division funds the Bank’s financing activities in Corporate Banking and Wealth Management, manages BLME’s capital and liquidity and provides Sharia’a compliant hedging, yield and FX structures.

Information regarding the results of the Group's three reportable segments, Corporate Banking, Wealth Management and Treasury is included in the following two pages. Performance is measured based on net segment contribution as included in the internally generated management information of the Bank utilised by the Executive Committee. Segment contribution is stated after charging (or crediting) funding costs between the segments in respect of the segment assets or liabilities which either require or generate funding. There are no other significant transactions between segments.

For the year ended 31 December 2016

	Treasury Division £000	Corporate Banking £000	Wealth Management £000	Unallocated items £000	Total £000

	(3,117)	**(1,922)**

Refer to note 9 for an explanation of the adjustment to cash flow hedge reserve.

8. Other operating income

	2016 £000	2015 £000
Gains on foreign exchange transactions	756	-
Gains on leased asset sales	1,135	2,026
Rental income from investment properties	1,540	1,968
Other	251	931
	3,682	**4,925**

9. Profit rate swaps

The Group uses Sharia'a compliant derivatives, profit rate swaps ("PRSs"), for hedging purposes in the management of its own asset and liability portfolios. This enables the Group to mitigate the market risk associated with re-pricing its assets and liabilities.

The accounting treatment of hedge transactions varies according to the nature of the instrument hedged and the type of hedge transactions. PRSs may qualify as hedges for accounting purposes if they are fair value hedges or cash flow hedges. These are described under the relevant headings below:

All PRSs are over-the-counter derivatives, none of which are settled through a central counterparty. There are no collateral arrangements.

Notional contract amounts of PRSs held for hedging purposes by product type:

Group and Bank

	2016 Cash flow hedges $000	2016 Cash flow hedges £000	2016 Fair value hedges $000	2016 Fair value hedges £000
Profit rate swaps	-	-	75,000	20,000

Group and Bank

	2015 Cash flow hedges $000	2015 Cash flow hedges £000	2015 Fair value hedges $000	2015 Fair value hedges £000
Profit rate swaps	57,000	-	108,000	20,000

With regard to PRSs, the notional contract amounts of these instruments indicate the nominal value of transactions outstanding at the balance sheet date; they do not represent amounts at risk.

Fair value hedges

BLME's fair value hedges consist of PRSs that are used to protect against changes in the fair value of fixed rate financial instruments due to movements in market rates and to accommodate the Bank's risk management policy. For effective fair value hedges, all changes in the fair value of the PRSs and in the fair value of the item in relation to the risk being hedged are recognised in the income statement. If the hedge relationship is terminated, the fair value adjustment to the hedged item is amortised to the income statement on an even yield basis over the remainder of the hedging period.

During 2016, management identified that fair value movements in hedging instruments relating to the fair value risk being hedged were recorded against financing arrangements rather than being recognised against the fair value reserve. Management concluded that the impact on the reported consolidated and bank financial statements in prior years was not material and consequently the Group reflected the adjustment in the current year (a charge of £1.2 million to other comprehensive income in 2016).

Fair value of PRSs designated as fair value hedges:

Group and Bank	2016 Fair value assets £000	2016 Fair value liabilities £000	2015 Fair value assets £000	2015 Fair value liabilities £000
Profit rate swaps	**-**	**1,254**	**-**	**1,100**

Movement in the fair value of PRSs used for fair value hedging:

Group	2016 £000	2015 £000
Net profit rate swap liability as at 1 January	(1,100)	(912)
Gains / (losses):		
Exchange translation	(79)	(3)
On hedging instruments through the income statement	141	103
On effective hedges	(216)	(288)
Net profit rate swap liability as at 31 December	**(1,254)**	**(1,100)**

The gains and losses on ineffective portions of fair value hedges are recognised immediately in "Other operating income / expense". During the year to 31 December 2016 a loss of £0.1 million (2015: £0.1 million) was recognised due to hedge ineffectiveness.

Cash flow hedges

The Group's cash flow hedges consist of US dollar denominated PRSs that are used to protect against exposures to variability in future cash flows on selected US dollar liabilities placed by financial institutions. The objective of the hedge relationship is to minimise the volatility of cash flows in respect of US dollar floating rate liabilities due to fluctuations in US dollar market rates. A macro approach is taken in designating the hedge relationship as described in IAS 39 and the hedged item is a portfolio of existing and future highly probable cash outflows. Gains and losses on effective cash flow hedges are initially recognised directly in other comprehensive income ("OCI") and accumulate in the cash flow hedging reserve, and are transferred to the income statement when the forecast cash flows affect the income statement.

During 2016, the Group identified that cash flow hedge accounting had not been appropriately adopted as the hedging transactions entered into did not satisfy the criteria for hedge accounting under IAS 39. Management concluded that the impact on the reported consolidated and bank balance sheets in prior years was not material. Furthermore, net assets in the prior year were not impacted; consequently the Group has reflected the related adjustments in the current year result (a loss of £1.4 million, which consisted of a £2.0 million gross charge offset with a tax credit of £0.6 million).

Fair value of PRSs designated as cash flow hedges:

Group and Bank	2016 Fair value assets £000	2016 Fair value liabilities £000	2015 Fair value assets £000	2015 Fair value liabilities £000
Profit rate swaps	**-**	**-**	**-**	**269**

Contractual principal balances of PRSs designated for cash flow hedging purposes

The schedules of contractual principal balances on which the expected profit cash flows arise as at 31 December 2016 and 31 December 2015 respectively are as follows:

Group and Bank	Less than 6 months	1 year or less but more than 6 months	Greater than 1 year	2016
	£000	£000	£000	£000
Liabilities	-	-	-	-

Group and Bank	Less than 6 months	1 year or less but more than 6 months	Greater than 1 year	2015 Total
	£000	£000	£000	£000
Liabilities	16,953	1,356	20,343	38,652

This table reflects the profit rate re-pricing profile of the underlying hedged items. The Group and Bank adopt a macro cash flow hedging strategy to match the existing rollover or forecast liabilities. Therefore the Group and Bank do not expect any maturity mismatch between the hedged liabilities and profit rate swaps at maturity.

10. Personnel expenses

	2016	2015
	£000	£000
Wages and salaries	11,138	12,543
Social security costs	1,194	1,499
Defined contribution pension scheme costs	1,082	1,084
Sharia'a Supervisory Board fees	163	62
Recruitment costs	951	645
Other staff costs	1,100	685
	15,628	16,518

The following table summarises the number of employees within the Group:

	2016	2015
	Number	Number
Period end	123	148
Average for the period - management	8	7
Average for the period - non-management	118	128

The 2015 number included employees from Renaissance Asset Finance Limited for the first time. As set out in Note 33 the Group deconsolidated RAF with effect from 31 March 2016.

11. Directors' emoluments

	2016 £000	2015 £000
Directors' emoluments	1,123	1,042
Pension contributions	10	-
	1,133	**1,042**

The aggregate emoluments of the highest paid director was £0.3 million (2015: £0.4 million), and pension contributions of £0.01 million (2015: £nil) were made on his behalf. During the year, compensation for loss of office amounting to £0.1 million was expensed in relation to a director who resigned during the year (2015: £0.4 million). During the year, none of the directors exercised share options (2015: none).

12. Other operating expenses

	2016 £000	2015 £000
Advertising and market development	236	284
Board and SSB related expenses	508	418
Communications and IT costs	1,852	1,645
Consultancy	2,627	1,066
Legal and professional fees	8,731	4,966
Loss on foreign exchange transactions and translation	-	529
Other operating charges	7,170	8,663
Rent and other occupancy costs	3,496	2,496
	24,620	**20,067**

Included within other operating expenses are fees paid to the Group auditors categorised as follows:

	2016 £000	2015 £000
Auditor's remuneration		
Fees payable to the company's auditor for the audit of the company's annual accounts	341	305
Fees payable to the company's auditor and its associates for other services:		
Audit of the accounts of subsidiaries	20	27
Audit-related assurance services	20	14
Tax compliance services	35	35
Tax advisory services	15	-
Other assurance services	111	150
	542	**531**

13. Share-based payments

During the year £0.1 million (2015: £0.3 million) was charged to the income statement in respect of share-based payment transactions arising under the following employee share schemes in accordance with the Group's reward structures:

	2016 £000	2015 £000
Approved Share Option Plan ("ASOP")	22	15
Unapproved Share Option Plan ("USOP")	136	118
Executive Share Option Scheme ("ESOP")	3	9
Deferred Incentive Plan Scheme ("DIPS")	10	24
Deferred Annual Bonus Scheme ("DABS")	(105)	91
	66	**257**

As referred to in Note 31, a corporate reorganisation was implemented on 2 October 2013 by means of a Court-approved Scheme of Arrangement under sections 895 to 899 of the UK Companies Act.

All existing options under the Bank of London and The Middle East plc share incentive plans lapsed as a result of the BLME Scheme of Arrangement and replacement options were offered by BLME Holdings plc on substantially the same terms and conditions. The replacement options shall be treated as granted at the same time as the original options and the exercise of the replacement options shall be exercisable in the same manner as the existing options. The issue of these replacement options has been accounted for under IFRS 2 as a modification with no incremental fair value arising that would require amortisation to the income statement over the remaining vesting period.

Calculation of fair values

The fair values of equity-settled share options, measured at the date of grant of the option, are calculated using a Black-Scholes model. The fair value of the options granted during the year, together with the main assumptions used in the Black-Scholes model for the share option awards, is included in the following tables:

Options issued in 2016	**ASOP** **2016**	**USOP** **Issue 1** **2016**	**USOP** **Issue 2** **2016**	**USOP** **Issue 3** **2016**
Fair value (cents) *	11.8	11.8	23.5	25.0
Share price (cents) *	50.0	50.0	67.0	67.0
Exercise price (cents) *	50.0	50.0	50.0	50.0
Expected volatility (% p.a.)	20.0	20.0	20.0	20.0
Expected option life (years)	6.5	6.5	6.5	7
Expected dividends (% p.a.)	Nil	Nil	Nil	Nil
Risk free interest rate (%)	1.27	1.27	0.7	1.02

Options issued in 2015	**ASOP**	**USOP Issue 1**	**USOP Issue 2**	**DIPS**
	2015	**2015**	**2015**	**2015**
Fair value (cents) *	22.4	22.4	50.0	13.7
Share price (cents) *	67.5	67.5	50.0	67.5
Exercise price (cents) *	68.0	68.0	Nil	68.0
Expected volatility (% p.a.)	30.0	30.0	N/A	20.0
Expected option life (years)	6.5	6.5	N/A	5.0
Expected dividends (% p.a.)	Nil	Nil	Nil	Nil
Risk free interest rate (%)	1.55	1.55	N/A	1.4

* The values per share disclosed in the above table are expressed in US Dollars because options were issued to employees with US Dollar strike prices given that the shares are listed on Nasdaq Dubai and traded in US Dollars. This is based on ordinary shares which have a sterling nominal value of 25 pence each (following the 25 for 1 share consolidation which took place on 2 October 2013 as part of the implementation of the BLME Scheme of Arrangement referred to in Note 31). The Black-Scholes fair value of the options has been translated into sterling using the exchange rate ruling at the date of grant, for the purpose of amortising the share-based payment expense.

The expected volatility was determined by reference to the historical volatility of the FTSE 350 Banks Index.

<u>Equity-settled schemes</u>

Approved share options

Approved share options are granted to employees under the “BLME Approved Share Option Plan” up to a market value limit of £30,000 to each individual on the date of grant. The options may vest after three years and are exercisable up to the tenth anniversary of the date of grant, after which they lapse.

ASOPs	**Number of options**	**Weighted average excercise price (pence)**	**Number of options**	**Weighted average excercise price (pence)**
	2016	**2016**	**2015**	**2015**
Outstanding at 1 January	1,222,865	106.0	1,213,837	118.5
Granted in the year	1,032,867	36.0	185,000	45.0
Forfeited in the year	(627,840)	92.6	(175,972)	127.7
Outstanding at 31 December	**1,627,892**	**66.1**	**1,222,865**	**106.0**
Exercisable at 31 December	**286,113**		**279,961**	

The weighted average remaining contractual life of the above ASOPs outstanding at the balance sheet date was 7.9 years (2015: 7.6 years). The weighted average exercise price is 66.1 pence (2015: 106.0 pence).

During 2010 options were issued in parallel to the existing approved options which had been granted during 2008 and 2009. These new “parallel” options were granted to staff over the same number of shares as their existing approved options but with an exercise price of 5 pence per share as against an exercise price of 6.5 pence per share for their existing approved options. The old and new options will operate in parallel, meaning that staff will be able to choose which to exercise. When one option is exercised, the other option will lapse. Therefore, although participating staff now have two approved options, they will only be able to exercise one of them.

Parallel ASOPs	Number of options 2016	Number of options 2015
Outstanding at 1 January	73,832	76,908
Granted in the year	-	-
Forfeited in the year	(21,534)	(3,076)
Outstanding at 31 December	**52,298**	**73,832**
Exercisable at 31 December	**52,298**	**73,832**

The weighted average remaining contractual life of the above parallel options outstanding at the balance sheet date was 3.2 years (2015: 4.2 years). The weighted average exercise price is 125 pence (2015: 125 pence). All of these options were exercisable at the balance sheet date (2015: all). The issue of these approved parallel options in 2010 has been accounted for under IFRS 2 as a modification with the incremental fair value being amortised to the income statement over the remaining vesting period.

Unapproved share options

Unapproved share options are granted under the "BLME Unapproved Share Option Plan" to employees who already have received approved share options up to the market value limit of £30,000. The options may vest after three years and are exercisable up to the tenth anniversary of the date of grant, after which they lapse.

USOPs	Number of options 2016	Weighted average excercise price (pence) 2016	Number of options 2015	Weighted average excercise price (pence) 2015
Outstanding at 1 January	4,473,522	57.6	1,840,727	101.5
Granted in the year	9,230,133	39.6	2,687,500	28.3
Forfeited in the year	(2,611,404)	50.2	(54,705)	84.5
Outstanding at 31 December	**11,092,251**	**44.3**	**4,473,522**	**57.6**
Exercisable at 31 December	**355,536**		**21,536**	

The weighted average remaining contractual life of the above USOPs outstanding at the balance sheet date was 5.0 years (2015: 9.1 years). The weighted average exercise price is 44.3 pence (2015: 57.6 pence).

6.9 million of the USOPs granted in 2016 were issued with a longer vesting profile with 50% vesting after 3 years, 25% vesting after 4 years and 25% vesting after 5 years.

Executive share option scheme

Share options were first granted to senior management under the BLME Unapproved Share Option Plan in 2009. The options granted in 2009 and 2010 were split equally into employment options and performance options. Employment options vest upon completion of service periods, performance options vest on meeting or surpassing targets for growth in the Net Asset Value of the Group.

The ESOP awards were made in four equal tranches with different vesting periods. The expected option life is dependent on the behaviour of option holders and is incorporated into the model on the basis of best estimate.

ESOPS	Number of options 2016	Number of options 2015
Outstanding at 1 January	2,288,409	2,688,943
Granted in the year	-	-
Forfeited in the year	(455,982)	(400,534)
Outstanding at 31 December	**1,832,427**	**2,288,409**
Exercisable at 31 December	**1,832,437**	**2,256,884**

The options forfeited relate to performance options where the target criteria were not met. The weighted average remaining contractual life of the executive share options outstanding at the balance sheet date was 2.8 years (2015: 3.8 years). The weighted average exercise price is 162.5 pence (2015: 162.5 pence).

Deferred Incentive Plan Scheme ("DIPS")

The DIPS is a five-year plan introduced by the Group in 2015 with participation open to all Group employees. Under the Plan, employees sacrifice a portion of their salary in exchange for being granted options to acquire shares in BLME Holdings plc with a maximum market value limit of £30,000 at grant date. The options are granted under BLME Holding plc's existing ASOP and USOP schemes.

DIPS	Number of options 2016	Number of options 2015
Outstanding at 1 January	941,306	-
Granted in the year	-	1,295,713
Forfeited in the year	(339,757)	(354,407)
Outstanding at 31 December	**601,549**	**941,306**
Exercisable at 31 December	**-**	**-**

The weighted average remaining contractual life of the above DIPS options outstanding at the balance sheet date was 8.2 years (2015: 9.2 years). The weighted average exercise price was 45.0 pence (2015: 45.0 pence).

Cash-settled schemes

Deferred annual bonus scheme

DABS are granted under the "BLME Deferred Annual Bonus Scheme" which was introduced to ensure that the long term interests of certain employees were aligned with the interests of Shareholders. Participating in the scheme entitles the employee to receive a matching award at no cost providing certain conditions, including a performance condition, are met. Performance conditions are set and monitored by the Remuneration Committee. DABS take the form of nil cost options but can be settled in cash at the discretion of the company.

The DABS scheme rules were amended in March 2015 to introduce employees awards being subject to forfeiture on leaving employment when the Remuneration Committee determines that the staff member concerned is a good leaver and for awards to be cash settled at the discretion of the Company.

DABS	Number of nil cost options 2016	Number of nil cost options 2015
Outstanding at 1 January	1,115,194	875,610
Awarded and deferred	1,315,920	1,698,749
Awarded under matched award	-	-
Forfeited in the year	(931,075)	(1,062,921)
Exercised in the year	(9,230)	-
Settled in the year	(497,457)	(396,244)
Outstanding at 31 December	**993,352**	**1,115,194**
Exercisable at 31 December	**104,923**	**65,431**

The weighted average remaining contractual life of the above nil cost options outstanding at the balance sheet date was 8.5 years (2015: 8.5 years). The weighted average exercise price was nil (2015: nil).

14. Impairments of financial assets and operating leases

The table below sets out a reconciliation of changes in impairment provisions against financial assets and operating leases:

Group			**2016**
	Specific	**Collective**	**Total**
Impairments of financial assets:	**£000**	**£000**	**£000**
Balance at 1 January 2016	35,741	3,346	39,087
Exchange translation and other movements	1,369	-	1,369
Income statement:			
Gross impairment charge for the year	17,421	799	18,220
Amount recovered during the year	(2,377)	-	(2,377)
Net impairment charge for the year	**15,044**	**799**	**15,843**
Amounts written off during the year	(33,136)	-	(33,136)
Balance as at 31 December 2016	**19,018**	**4,145**	**23,163**
Being impairments against:			
Financing arrangements	13,511	1,827	15,338
Finance lease receivables	4,674	2,318	6,992
Operating lease assets	833	-	833
	19,018	**4,145**	**23,163**

There were no specific impairments against Cash and balances with banks, Due from financial institutions, Investment securities or Other assets.

Refer to Note 2c v and Note 3a for the factors considered in deriving the collective impairment charge for the year.

Group			**2015**
	Specific	**Collective**	**Total**
Impairments of financial assets:	**£000**	**£000**	**£000**

Due from financial insitutions	-	117	117
Other assets	30	-	30
Balance as at 31 December 2015	**35,741**	**3,346**	**39,087**

Specific impairments

The table below sets out a reconciliation of changes in the carrying amount of financial assets and operating leases that are specifically impaired:

Group

	31 December 2016 £000	**31 December 2015 £000**
Opening net carrying balance	45,112	22,797
Exchange translation and other movements	(2,112)	287
Change in allowance for impairment	24,752	10,534
Classified as impaired during the year	24,322	41,691
Transferred to not impaired during the year	(11,091)	(9,349)
Amounts written off	(33,084)	(14,231)
Disposals	(8,760)	(6,617)
Closing net carrying balance	**39,139**	**45,112**

Bank

	31 December 2016 £000	31 December 2015 £000
Opening net carrying balance	45,112	22,797
Exchange translation and other movements	(2,112)	287
Change in allowance for impairment	24,752	10,534
Classified as impaired during the year	24,322	41,691
Transferred to not impaired during the year	(11,091)	(9,349)
Amounts written off	(33,084)	(14,231)
Disposals	(8,760)	(6,617)
Closing net carrying balance	**39,139**	**45,112**

The tables below set out an analysis of the gross and net carrying amount of specifically impaired financial assets and operating leases as at 31 December 2016 by statement of financial position line, by country and by economic sector. The impairment against operating leases is related to the future estimated value of the leased item at the end of the lease term i.e. against residual value. As a result, this is a physical asset risk rather than a credit risk. The operating lease portfolio is valued regularly by external third parties.

Group

As at 31 December 2016	Gross exposure £000	Specific impairment £000	Net exposure £000

UK Corporation Tax		
- current tax for the year	40	(20)
Overseas tax for the year	22	15
Deferred tax for the year	2,437	(1,542)
Tax charge / (credit) in income statement	**2,499**	**(1,547)**

The tax charge for the year is higher (2015: credit and lower) than the standard rate of corporation tax which is explained as follows:

Group	2016	2015
	£000	£000
Reconciliation of effective tax rate		
Loss for the year before tax	(18,884)	(8,397)
Loss for the year multiplied by standard rate of corporation tax in the UK of 20% (2015: 20.25%)	(3,777)	(1,700)
De-recognition of deferred tax asset	3,062	-
Deferred tax on cash flow hedge de-recognised	625	-
Current year tax losses not recognised as deferred tax	2,623	-
Expenses not deductible for tax purposes	282	206
Tax exempt income	(50)	(75)
Effect of change in tax rates	-	21
Others	(185)	(101)
Gains / (losses) on other assets	271	(123)
Prior year adjustment to deferred tax	(352)	225
Tax charge / (credit) in income statement	**2,499**	**(1,547)**

Further to the Chancellor's 8 July 2015 Budget, which included a proposal to reduce the UK corporation tax rate from 20% to 19% from 1 April 2017, the Budget on 16 March 2016 also proposed to further reduce the rate to 17% from 1 April 2020. The proposal to reduce the rate to 17% was enacted on 6 September 2016.

Deferred tax

Deferred tax assets are recognised for tax losses carried forward only to the extent that realisation of the related tax benefit is probable. During the year, management derecognised the deferred tax asset, which had primarily arisen as a result of tax losses carried forward from prior years. Management deemed it appropriate to de-recognise this asset on the basis of current and prior year losses and after an assessment of the timeliness of generating sufficient taxable profits against which the carried forward tax losses of £24.1 million could be utilised.

Valuation at 31 December	**0**	**26,790**

** this item has been included in "net fair value gains on investment properties" in the income statement. No items have been included in other comprehensive income.*

The Group accounted for its investment properties under IAS 40 "Investment property" using a fair value model. The investment properties were valued by independent external professionally qualified valuation agents based on current prices in an active market and were classified as Level 2 for the purposes IFRS 13. Further detail on the valuation technique used can be found on page 116 in Note 36.

During the year, the Light Industrial Building Fund portfolio was sold which resulted in investment properties being derecognised from the Group's consolidated statement of financial position.

The income statement includes rental income from the investment properties of £1.5 million (2015: £2.0 million) in the line "Other operating income" and direct operating expenses of £0.02 million (2015: £0.6 million) including repairs and maintenance in the line "Other operating expenses".

VAT payable	1,284	33
Deferred income	48	229
Social security and income tax	352	532
Accruals	7,532	7,081
Provisions	1,180	-
Other creditors	2,086	6,612
	12,739	**15,370**

Bank	2016	2015
	£000	£000
Trade payables	257	826
VAT payable	1,284	-
Deferred income	48	-
Social security and income tax	352	443
Accruals	6,332	5,548
Provisions	1,180	-
Other creditors	607	3,862
	10,060	**10,679**

The provisions balance of £1.2 million relates to an onerous lease as described in Note 29.

29. Commitments under operating leases

Cannon Place	2016	2015
	£000	£000
Future minimum rentals are as follows:		
Lease expiring in more than five years	13,085	14,043
	13,085	**14,043**

There is a commitment at year-end under a non-cancellable operating lease for the Bank's main office premises at Cannon Place, 78 Cannon Street, London EC4N 6HL for a fifteen year period (with a ten year break clause) from 11 September 2015 to 10 September 2030, at an annual rental of £1.0 million with an initial rent free period.

During the year £0.8 million was recognised as an expense in the income statement in respect of this operating lease (2015: £0.2 million).

Manchester Square	2016	2015
	£000	£000
Future minimum rentals are as follows:		
Lease expiring between one and five years	679	-
Lease expiring in more than five years	-	5,662
	679	**5,662**

There is a commitment at the year-end under a non-cancellable operating lease for the Bank's Wealth Management Division's former premises at 12 Manchester Square, London W1U 3PP for a twenty year period (with a ten year break clause) from 23 June 2008 to 22 June 2028, at an annual rental of £0.5 million with an initial rent free period (2015: £0.5 million).

During the year, employees were relocated from Manchester Square to the Bank's primary office at Cannon Place; consequently, the company stopped using these premises during 2016 resulting in surplus lease space. The lease has a break clause in June 2018 and the obligations for the future payments and estimated costs to run the office have been provided for in these consolidated financial statements. During the year £1.2 million was recognised as an onerous lease provision in the income statement comprising both the contractual rental paid and a reliable estimate of future costs based on historical experience and contractual terms. In recognising this onerous lease, the present obligation of estimated costs associated with future service charges, maintenance and fixtures & fittings have also been accelerated through the income statement. BLME is not expecting any recoveries during this period and consequently none have been provided for.

Lowry House	2016	2015
	£000	£000
Future minimum rentals are as follows:		
Lease expiring between one and five years	8	8
	8	**8**

There is a commitment at the year-end under a non-cancellable licence agreement for the Bank's Corporate Banking Regional office premises at Lowry House, 17 Marble Street, Manchester M2 3AW for a one year period from 1 April 2015 to 31 March 2016, at an annual licence fee of £0.03 million (2015: £0.03 million).

During the year £0.04 million was recognised as an expense in the income statement in respect of this operating lease (2015: £0.02 million).

Dubai office

	2016	2015
	£000	£000
Future minimum rentals are as follows:		
Lease expiring in less than five years	276	355
	276	**355**

There is a commitment at the year-end under a non-cancellable operating lease for the Bank's representative office in Dubai for a three year period from 15 November 2015 to 14 November 2018, at an annual rental of AED 0.7 million, which was equivalent to £0.1 million at the balance sheet date (2015: AED 0.7 million / £0.1 million), with an initial rent free period.

During the year £0.1 million was recognised as an expense in the income statement in respect of this operating lease (2015: £0.1 million).

Redditch

	2016	2015
	£000	£000
Future minimum rentals are as follows:		
Lease expiring between one and five years	17	21
	17	**21**

There is a commitment for the Group and Bank at the year-end under a non-cancellable licence agreement for the premises of MKL Construction Equipment Finance Limited, a 60% subsidiary of the Bank, at Marubeni Komatsu Limited, Padgets Lane, Redditch B98 0RT, for a five year period from 25 September 2015 to 25 September 2020, at an annual rental of £0.007 million (2015: £0.007 million).

During the year £0.005 million was recognised as an expense in the income statement in respect of this operating lease (2015: £0.001 million).

30. Contingent liabilities

The contingent liability created in 2013 was extinguished during the year when BLME sold the Light Industrial Building Fund. The original contingent liability arose when BLME Holdco Limited, a subsidiary of the Bank, charged its holding of 100 ordinary shares of £1 each in BLME (UK) GP Limited, its 100% subsidiary, to LIBF Funding PCC – transacting in respect of its cell LIBF Funding Cell One PC – in relation to a financing agreement on behalf of BLME Light Industrial Building L.P., a partnership entity within the BLME Sharia'a Umbrella Fund SICAV SIF.

31. Share capital and share premium

Group and Bank	Number of shares	Share capital £000	Share premium £000
Allotted, called up and fully paid			
At 31 December 2014	195,733,691	48,933	205,623
Court approved reduction of the Share Premium account (2015)			(25,000)
At 31 December 2015 and 31 December 2016	**195,733,691**	**48,933**	**180,623**

In 2015 the Bank reduced its Share Premium account by £25 million with the resulting credit balance being transferred into Retained Earnings. This was conducted by way of a Special Resolution of BLME passed in accordance with section 283 of the Companies Act 2006 at a general meeting of BLME duly convened and held on 24 November 2015. This process was formally approved by the High Court of Justice in London and became effective on 16 December 2015.

In 2013, as part of the preparation of the BLME Group for Admission to the Official List of Securities of Dubai Financial Services Authority and Admission to Trading on NASDAQ Dubai, a corporate reorganisation was implemented by means of a Court-approved scheme of arrangement under sections 895 to 899 of the UK Companies Act. Pursuant to the Scheme of Arrangement, BLME's Shareholders exchanged their ordinary shares in Bank of London and The Middle East plc for a beneficial interest in the ordinary shares of BLME Holdings plc.

The effects of the implementation of the BLME Scheme of Arrangement were as follows:

i. instead of having its issued share capital owned by BLME's Shareholders, Bank of London and The Middle East plc is now a wholly-owned subsidiary of BLME Holdings plc

ii. instead of owning a given number of Bank of London and The Middle East plc shares, each BLME Shareholder now beneficially owns approximately one BLME Holdings plc share for every 25 Bank of London and The Middle East plc shares that it held prior to the BLME Scheme of Arrangement becoming effective

iii. BLME Holdings plc became the new holding company of the BLME Group.

Pursuant to the BLME Scheme of Arrangement, the issued share capital of Bank of London and The Middle East plc was reduced by cancelling and extinguishing the ordinary shares of Bank of London and The Middle East plc in issue immediately prior to the BLME Scheme of Arrangement becoming effective (the "Scheme shares"), following which the credit arising in the books of Bank of London and The Middle East plc as a result of the cancellation was applied in paying up in full new ordinary shares of Bank of London and The Middle East plc, such that the aggregate nominal value of such new ordinary shares equalled the aggregate nominal value of the Scheme shares cancelled. The Bank of London and The Middle East plc new ordinary shares were issued to BLME Holdings plc which, as a result, became the holding company of Bank of London and The Middle East plc and the BLME Group.

In consideration for the cancellation of the Scheme shares, the BLME Shareholders were entitled to a beneficial interest in one BLME Holdings plc share for every 25 Scheme shares held. The principal purpose of the consolidation was to enable a price to be established for the BLME Holdings plc shares at Admission which the Directors considered to be at an appropriate level for effective and orderly market dealings in BLME Holdings plc shares to commence on NASDAQ Dubai.

A meeting of the holders of Bank of London and The Middle East plc shares convened by an order of the Court pursuant to section 896 of the UK Companies Act was held on 10 June 2013 at which the BLME Scheme of Arrangement was approved by a majority in number, representing not less than 75 per cent. in value of shareholders present and voting, either in person or by proxy.

A general meeting of the Bank of London and The Middle East plc Shareholders, to approve amongst other things:

i. the BLME Scheme of Arrangement

ii. the cancellation of the Scheme shares

iii. the application of the reserve arising as a result of the cancellation of the Scheme shares to paying up the new Bank of London and The Middle East plc shares and the allotment of the new Bank of London and The Middle East plc shares to BLME Holdings plc

was also held on 10 June 2013 and the above proposals were approved as special resolutions by not less than 75 per cent. in value of the votes cast.

The Court hearing at which the BLME Scheme of Arrangement was sanctioned was held on 2 October 2013 and the BLME Scheme of Arrangement became effective on that date.

32. Capital contribution

Group and Bank	2016	2015
	£000	£000
Assumption of share incentive scheme liabilities by parent company:		
Opening balance on Share-based payment reserve at 1 January	1,484	1,410
Settlement of share-based payment awards by BLME		-
Transfer to other liabilities		-
Transfer to Retained Earnings	(51)	(92)
Equity-settled share-based payment awards	171	166
Closing balance at 31 December	**1,604**	**1,484**

Pursuant to the scheme of arrangement under sections 895 to 899 of the UK Companies Act that was implemented on 2 October 2013, and as explained in Note 13, all existing options under the Bank of London and The Middle East plc share incentive plans lapsed and replacement options were offered by BLME Holdings plc on substantially the same terms and conditions.

Furthermore, Bank of London and The Middle East plc was relieved of its obligations under the share incentive plans and those responsibilities were assumed by BLME Holdings plc for no consideration.

As this transaction is a non-monetary transaction for no consideration with a parent company, it is in effect additional investment in Bank of London and The Middle East plc by BLME Holdings plc. Therefore Bank of London and The Middle East plc has derecognised its Share-based payment reserve and recognised a corresponding increase in equity as a contribution from its parent company.

33. Subsidiaries and other entities

Subsidiaries (not structured entities)	Place of business & Country of incorporation	BLME interest in equity capital	Issued equity capital
Directly held:			
BLME Holdco Limited	England & Wales	100%	£102
BLME Holdings EBT	Jersey	100%	£100

Indirectly held:						
BLME Asset Management Limited	England & Wales	100%	£2	BLME Holdings plc	BLME plc	78 Cannon Street, London EC4N 6HL

As the Group owns the majority of the equity capital of the above entities, it is exposed, and has rights, to variable returns from its involvement with the investees and has the ability to affect those returns through its power over the investees. Consequently, the results of the subsidiaries above have been consolidated in these financial statements.

Deconsolidation of Renaissance Asset Finance Limited in 2016

With effect from 30 June 2015, the Group consolidated Renaissance Asset Finance Limited ("RAF") into the Group results; management determined that it had control of the entity due to an option to purchase 100% of RAF's issued share capital becoming exercisable on 30 June 2015. Under IFRS 10, this resulted in the Group deeming to have power over, and control of, RAF. For the first three months of the current reporting period, BLME continued to consolidate RAF into the Group results. The option to purchase the business lapsed at the beginning of April 2016. Accordingly, under IFRS 10 control of the entity was lost and it was considered appropriate to deconsolidate RAF. Consequently, a loss of £1.7 million has been recognised in "loss on disposal of group company" in the income statement.

	At 31 March 2016 £000
Derecognition of outstanding consideration	2,192
Derecognition of the carrying amount of net assets	(3,912)
Loss on disposal of group company	**(1,720)**

Outstanding consideration was calculated by estimating future cash flows and present valuing them using a risk-adjusted discount rate. Net cash flows expected to be generated factored in historical performance and budgets.

Consolidation of Renaissance Asset Finance Limited in 2015

Goodwill arising from this transaction had previously been recognised as follows:

	2016 £000	2015 £000
Total consideration transferred	-	4,295
Fair value of identifiable net liabilites	-	474
Goodwill	-	4,769

The following table summarises the recognised amounts of assets acquired and liabilities assumed at the date of acquisition in 2015 and the line item within which were consolidated in the Group's statement of financial position as at 31 December 2015:

	2016 £000	2015 £000
Cash	-	1,218
Financing arrangements	-	29,192
Finance lease receivables	-	3,431
Property and equipment	-	48
Other assets	-	1,339
Due to financial institutions	-	(35,172)
Due to customers	-	(1)
Other liabilities	-	(529)
Total net liabilities	-	(474)

The goodwill was attributable to management's demonstrable track record in establishing similar companies and the expected cash flows arising from the company's client base. Fair value was determined by undertaking a discounted cash flow analysis of future cash flows of the business using market discount rates.

Asset Management seed capital investment

The Bank also holds the following investments in different compartments of the BLME Sharia'a Umbrella Fund SICAV SIF:

Compartment (not structured entities)	Share Class	Holdings 2016	Holdings 2015
BLME Income Fund	Management	-	1
	B	-	25,741.369
	C	-	24,995.251
	G	-	1,234.491
	M	-	198.766
BLME Global Sukuk Fund	A	-	8,239.545
BLME Light Industrial Building Fund	A	176.487	10,027.628
	Management	1	-

The holdings represent a majority interest in the remaining active compartment of the BLME Sharia'a Umbrella Fund SICAV SIF which is therefore deemed to be controlled by the Group and thus consolidated into the Group's results. During 2016, the Bank redeemed its investment in the Income Fund and Global Sukuk Fund. The reduction in its holding of the Light Industrial Building Fund is explained further in Note 19. The overall holding in the BLME Sharia'a Umbrella Fund SICAV SIF is approximately 55.6% (2015: 57.6%) of the shares issued. The Group recognised an expense of £0.05 million (2015: £1.7 million) in the income statement line "Change in third party interest in consolidated funds" relating to the minority interest of third party investors in the fund. The minority interest of 44.4% (2015: 42.4%) has been reported in the Group's balance sheet liabilities line "Third party interest in consolidated funds".

There are two active structured entities ("SE") (2015: two) that are consolidated under IFRS 10 as the substance of the relationship is that the entities are deemed to be controlled by the Group. These entities are deemed to be controlled by the Group because the relationships between the Group and the SEs are governed by participation agreements which allow the Group to exercise power over the SEs in addition to being exposed to, and having rights over, the variable returns from its involvement with the SEs. Furthermore, the Group has the ability to use its power to affect its returns from its involvement in the SEs.

The two entities are as follows:

- Kalakane Transatlantic Investors II, Inc. (USA) – Operating leases
- DMJ 2 LLC (USA) – Operating leases

Lease assets owned by the structured enties are reported as Group operating lease assets and amount to £2.4 million (2015: £10.6 million).

At the end of the year the Bank had the following balances with the above mentioned subsidiaries and other consolidated entities which are related parties of the Bank:

Bank	2016	2015
	£000	£000
Financing arrangements		
Particpation agreement amounts due from leasing SEs / subsidiaries	1,333	13,470
Other assets		
Management fees due from BLME Sharia'a Umbrella Fund SICAV SIF	-	279
Loan due from BLME (UK) GP Limited	-	3
Total	**1,333**	**13,752**

During the year income was received from the following subsidiaries and other consolidated entities as follows:

Bank	2016	2015
	£000	£000
Income from financing activities		
Participation agreement income from leasing SEs	430	1,769
Management fee income		
Management fees from BLME Sharia'a Umbrella Fund SICAV SIF	287	724
Property acquisition fees from the LIBF compartment of the SICAV SIF	-	38
Total	**717**	**2,531**

The BLME Holdings EBT holds a stock of own shares acquired at a cumulative cost of £4.2 million (31 December 2015: £4.2 million) which has been deducted from retained earnings in the Condensed Consolidated Statement of Changes in Equity. The BLME Holdings EBT did not purchase any own shares during the year (2015: nil). No stamp duty costs were incurred by the Group on behalf of the BLME Holdings EBT during the year (2015: nil).

- **Significant restrictions**

The Group does not have significant restrictions on its ability to access or use its assets and settle its liabilities other than those resulting from the supervisory frameworks within which banking subsidiaries operate. The supervisory frameworks require banking subsidiaries to keep certain levels of regulatory capital and liquid assets, limit their exposure to other parts of the Group and comply with other ratios. The carrying amounts of Bank of London and The Middle East Plc's assets and liabilities are £1,029 million and £812 million respectively (2015: £1,241 million and £1,003 million respectively).

- **Interests in unconsolidated structured entities**

The Group does not have any interests in unconsolidated structured entities.

- **Contractual arrangements and financial support**

The Group does not have any contractual arrangements that could require the parent or its subsidiaries to provide financial support to a consolidated or unconsolidated structured entity (2015: none).

Except for a letter of support provided to MKL Construction Equipment Finance Limited, the Group did not provide financial support to any of its consolidated or unconsolidated structured entities during 2016 (2015: nil) and does not have any current intentions to provide such support (2015: none).

34. Related parties

During the year the Bank entered into transactions, other than those included in Notes 11, 29 and 33, on an arm's length basis with related counterparties as detailed below.

	2016	2015
	£000	£000
Boubyan Bank K.S.C.P		
Wakala placement	490,532	98,325
Wakala deposit taking	304,049	11,168
Foreign exchange transactions	249	-
The Public Institution for Social Security		
Reverse Murabaha	505,294	570,865

The amounts outstanding with Boubyan Bank K.S.C.P as at 31 December were as follows:

Included within:	2016	2015
	£000	£000
Cash and balances with banks		
Nostros	1,941	1,244
Due from financial institutions		
Wakala placement	-	-
Due to financial institutions		
Wakala deposit taking	-	11,175

As at 31 December 2016, Boubyan Bank K.S.C.P held an economic interest of 26.39% of the Parent Company's shares (2015: 25.62%). A Non-executive Director who joined the Board on 6 December 2012, and was appointed Chairman on 31 March 2014, is the current Chief Executive Officer and Vice-Chairman of Boubyan Bank K.S.C.P.

The amounts outstanding with The Public Institution for Social Security (of Kuwait) as at 31 December were as follows:

Included within:	2016	2015
	£000	£000
Reverse Murabaha	522,812	585,426

As at 31 December 2016, The Public Institution for Social Security held 7.67% (2015: 7.67%) of the Bank's shares. The Bank's Vice Chairman holds the position of Deputy Director General for Investment of The Public Institution for Social Security.

The key management of the group are the Executive Directors. The compensation of key management personnel for the year was as follows:

	2016	2015
	£000	£000
Key management emoluments *	827	760
Bank contributions to pension plans	10	-
	837	**760**

* Key management emoluments includes share-based payments of £0.09 million (2015: £0.01 million).

35. Parent company

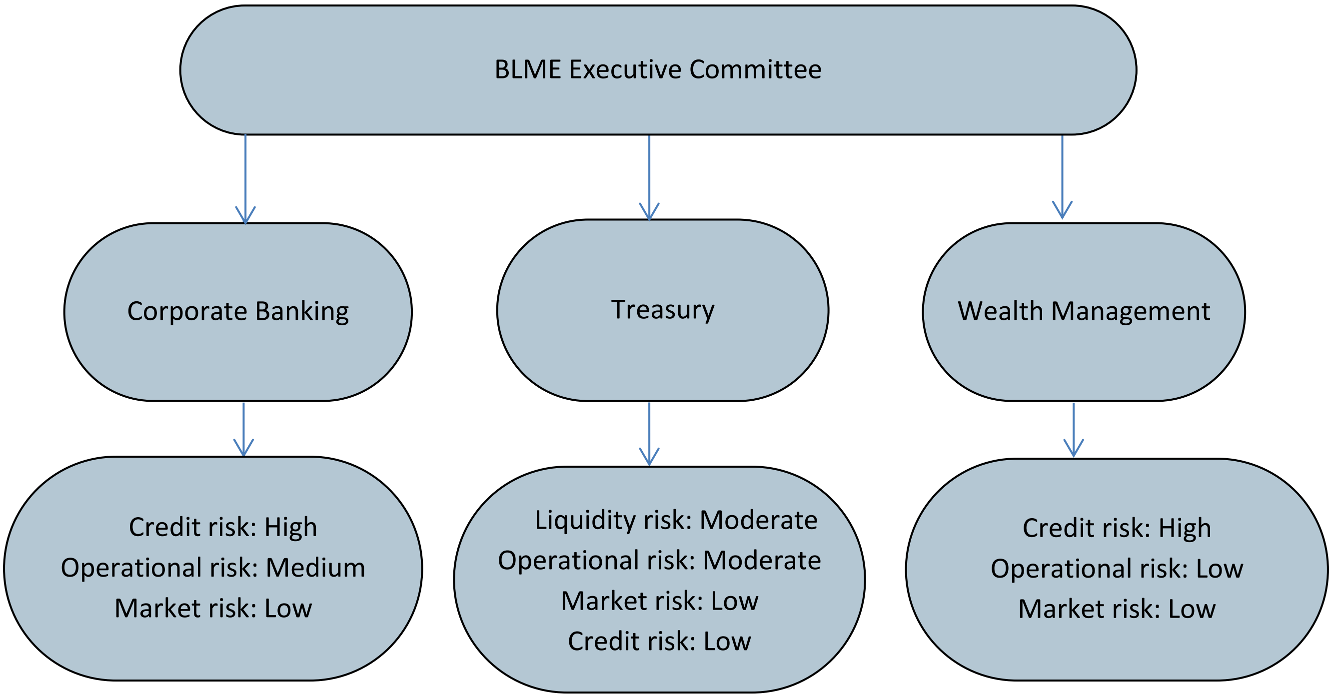
As at 31 December 2016 the Bank's ultimate parent undertaking was BLME Holdings plc, a limited liability company incorporated and domiciled in England & Wales, which is also the parent undertaking of the largest group of undertakings for which group financial statements are drawn up and of which the Bank is a member. Copies of the group financial statements of BLME Holdings plc can be obtained from the Company Secretary, BLME Holdings plc, Cannon Place, 78 Cannon Street, London EC4N 6HL.

36. Financial risk management

The Group and Bank have exposure to the following risk categories arising from the use of financial instruments:

- credit risk
- liquidity risk
- market risk
- operational risk
- capital risk
- conduct risk

The chart below provides a link between the Group's business units and the principal risks that they are exposed to. The significance of risk is assessed within the context of the Group as a whole and is measured based on allocation of the regulatory capital within the Group.



The following presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing these risks, and the management of capital.

Following the appointment of the new management team a review of the Bank's business strategy has been undertaken and the following objectives have been identified:

- Reducing exposure to capital intensive and less profitable business lines;

- Growing its presence in the Gulf Cooperation Council (GCC) states and the Middle East;
- Reducing funding concentration. This will be achieved by attracting more deposits through BLME's Premier Deposit Account;
- Realising its investment in the BLME Umbrella fund compartments.

As referred to in the Chairman and CEO statements, the Bank has undergone significant changes in 2016 which has included a refinement of the Bank's risk management framework and Board risk appetite.

Risk management framework

The Group's risk management framework ("RMF") provides the foundation for ensuring risk-taking activity is consistent with the Bank's strategy and risk appetite, and that the Bank delivers good service and good outcomes for customers from its products. The RMF establishes an appropriate balance between risks and reward and ensuring robust controls and management of risk.

The Group's method of managing risk begins with the definition of the Bank's Risk Appetite, which when combined with the Bank's strategy articulates its willingness to be exposed to risk events and losses.

The RMF is subject to regular evaluation to ensure that it meets the challenges and requirements of the market in which the Bank operates, including regulatory standards and industry best practices. The Bank requires a strong and proactive RMF in order to mitigate all principal risks and:

- Manage the Bank in line with the Board's approved Risk Appetite;
- Achieve the Bank's strategic objectives whilst adhering to its Risk Tolerance levels;
- Empower and equip the Bank's staff to make decisions in a risk-aware manner; with roles, responsibilities, and delegated authorities clearly defined; and
- Embed a culture of treating customers fairly.

The RMF lays out systematic processes to identify, evaluate, mitigate, report, and manage risk:

- Risk identification – ensure there is a clear definition of each risk entered into by the Bank with an identified Risk Owner;
- Risk assessment – agree and implement appropriate, effective risk measurement and reporting standards for each identified risk. Set metrics together with reporting monitoring controls, processes and standards;
- Risk mitigation – establish key control processes and practices, including limit structures, impairment allowance criteria and reporting requirements. Ensure all frameworks and policies are regularly reviewed and kept relevant and up to date;
- Execution & monitoring – separate control functions independent of business lines are responsible for monitoring the operation of the controls and adherence to risk direction and limits;
- Manage and challenge – review and challenge all aspects of the Bank's risk profile;
- Ensuring all products are Sharia'a compliant;
- The roles of each line of defence.

The Bank's RMF requires the following principles to be adhered to:

- All risks assessed as being principal risks to be covered by a Risk Appetite Statement, Policy and operating process to mitigate the risk;
- The Board retains overall responsibility for approving business strategy, understanding principal risks and ensuring that the risks are adequately controlled and monitored;
- The Board Risk Committee provides overall supervision and challenge of the RMF, with independent reporting lines for the Chief Risk Officer to enable this;
- Adoption of a "4 eyes" maker / checker control system throughout the Bank, with independent review / approval of key risk decisions in a 3 Lines of Defence (3 LOD) model.

Board Risk Appetite

The Board defines its appetite and tolerance for risk expressed in terms of qualitative and quantitative metrics which are measured on a stressed and unstressed basis.

The BLME Risk Appetite Statement is set by the BLME Board and is reviewed at least semi-annually, as part of the BLME strategic discussion. The risk appetite is set at least annually.

The Board has set risk appetite within the context of projected financial earnings and balance sheet over the short and medium term. The risk appetite has been set to clearly articulate the Board's objectives under a stress event, and to align to the Board's stated strategy.

The Board's appetite for risk is stated as an appetite for potential loss under stressed and normal market scenarios which drives the business to focus on business that has adequate rewards for the risks taken, and to control the overall level of risk undertaken.

The principal risks faced by the Group are described below, together with details of how these risks are managed. Quantitative information indicates the amounts of such risks at the reporting date. The amounts at the reporting date are indicative of the amounts of such risks which have been experienced throughout the year, with the exception of Brexit which is explained immediately below.

UK referendum on EU membership

On 23 June 2016, the UK electorate voted to leave the European Union ("EU"). The result of the referendum was a scenario we had assessed and prepared for in advance. The results of our stress testing and modelling meant we were appropriately positioned to withstand the immediate aftermath of the vote. We see the outcome as creating opportunities for BLME and for our overseas investors and clients who can access these opportunities by utilising BLME's expertise.

During the contingency planning period in the run-up to the referendum, management had carefully considered and modelled scenarios that introduced the following risks from an 'exit'-vote:

- Increased volatility in the foreign exchange market, with particular reference to an expectation for a weakening of sterling
- Increased default risks of companies with links to the EU
- Increased volatility in UK Gilt prices, and knock-on consequences for market yields
- Exposure to the London prime real estate market

Nine months have passed since the outcome of the referendum yet it still remains too early to determine the full impact of the vote to leave the EU. The decision to leave brings uncertainties; these include potential changes to, or in, the EU's "Passporting" rights for financial services, the legal framework within which the Bank operates and customer behaviour. This has resulted in financial market and macroeconomic uncertainty as the exit process is expected to take a number of years to plan, negotiate and implement. We continue to closely monitor and manage our positions in light of the vote to ensure we continue to maintain a strong capital and liquidity position. Certain foreign exchange hedges have also been entered into to help mitigate FX risk arising from sterling volatility.

Notwithstanding the uncertainty, the direct impact on BLME is considered to be relatively low given the majority of our counterparties are UK-based SMEs. We also have a number of GCC-based counterparties along with other non-EU business links. In addition, we take comfort from our relatively low financing-to-value ratios in our property lending portfolio.

a. Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty is not able to repay capital and/or profit, or otherwise meet its contractual obligations under credit facilities or in respect of other agreements. This risk is managed in accordance with the Group's Credit Risk Management Policy. The Group has a credit review process in place covering all its customers and counterparties whereby it assigns an in-house rating and maximum tenor. External rating agency ratings are used where available. Ratings are subject to regular review as is the amount of credit that can be made available to the risk counterparty.

i. Management of credit risk

The Group manages credit risk by the use of Portfolio Limits and Target Market Criteria within the Group's Credit Risk Management Policy. These sector and business based expressions of credit risk appetite provide guidance on the acceptable level of credit exposure by counterparty rating, country and sector, including the adequacy of collateral. Credit risks are monitored on a daily basis and regularly re-assessed for creditworthiness.

Board Credit Committee ("BCC") is a sub-committee of BRC established to review and agree decisions made by the Counterparty Credit Risk Committee ("CCRC") that are outside of stated risk appetite and/or meet other escalation criteria. A separate Credit Risk Department, accountable to the CCRC, is responsible for oversight of the Bank's credit risk, including:

- Formulating credit policies in consultation with other business units, covering credit assessments, collateral requirements, risk reporting, legal requirements and compliance with regulatory and statutory requirements
- Establishing authorisation limits and structures for the approval and renewal of credit exposure limits
- Reviewing and assessing credit risk prior to agreements being entered into with customers
- Establishing limits for counterparties and reviewing these limits
- On-going assessment of exposure and implementation of procedures to reduce this exposure
- Providing advice, guidance and specialist skills to all business areas throughout the Group in the management of credit risk.

Adherence to country and counterparty limits is monitored on an on-going basis by the Bank's Credit Risk Department, with a detailed review of all limits being undertaken at least annually. Senior management receives regular reports on the utilisation of these limits.

The Group also employs a credit grading system, to facilitate monitoring of the quality of the overall portfolio and individual segments.

ii. Exposure

The tables below present the Group and Bank's exposure to credit risk on their balance sheet financial instruments as at 31 December 2016, before taking account of any collateral held or other credit enhancements. The amounts at the current reporting date reflect the continued de-risking of the Group's lending portfolio. This has resulted in a decrease in the overall gross exposures as a consequence of the Bank exiting non-core business such Islamic Capital Markets and US Leasing, and higher risk products which includes ABL Finance.

The Group and Bank had 40 off balance sheet letters of guarantee outstanding at 31 December 2016 (2015: 54) with a total exposure of £24.8 million (2015: £21.2 million). These letters of guarantee mainly relate to short dated Trade Finance and ABL Finance facilities with a maturity of less than six months.

The Group's other assets includes £1.2 million related to prepayments (2015: £5.4 million). The Bank's other assets includes £1.2 million related to prepayments (2015: £1.0 million). Prepayments have minimal credit risk but has been included for convenience of agreeing to the statement of financial position.

iii. Exposure by country of incorporation of the borrower

The Group and Bank's exposure to credit risk at balance sheet date were dispersed across the following countries:

Group	**2016**	**2015**
	£000	**£000**
GCC countries		
Bahrain	7,747	1,722

Total credit exposure	**1,003,740**	**1,203,999**

v. Credit risk quality

The Group's and Bank's credit quality and direct investments are managed by CCRC and the Assets and Liabilities Committee respectively, under the oversight of the Executive Committee and, in the case of CCRC, Board Credit Committee. Credit quality is assessed using techniques that include information from the major External Credit Assessment Institutions ("ECAI") as well as BLME internal ratings for customers who are not externally rated. BLME internal ratings are assigned an ECAI rating for comparison purposes. The tables below show the breakdown of credit quality as at 31 December 2016. Of the total portfolio 27% (2015: 28%) was directly rated by at least one of the ECAI, with 73% (2015: 72%) mapped using internal ratings.

For counterparties not rated by the major ECAI the Group and Bank determine underlying counterparty credit quality by use of its internal credit rating procedures. These procedures assess in combination, the financial and managerial strength, business model robustness, collateral value and availability and the sector and geography of the counterparty concerned. Following this assessment an internal BLME rating is allocated.

Group

At 31 December 2016	**ECAI ratings**		**BLME Internal Rating**		**Unrated**	
	Investment Grade	Sub-Investment Grade	Investment Grade equivalent	Sub-Investment Grade		**Total**
	£000	**£000**	**£000**	**£000**	**£000**	**£000**

Gross exposure associated with impairment provision	45,232	53,329	11,811	24,995
Less: allowance for impairments	(15,827)	(33,161)	(6,992)	(5,718)
Total	**474,637**	**626,714**	**232,701**	**281,959**
Past due but not impaired	**£000**	**£000**	**£000**	**£000**
Past due up to 30 days	23,758	8,980	5,030	5,742
Past due 30 to 60 days	-	24,277	403	687
Past due 60 to 90 days	-	-	609	-
Past due over 90 days	-	-	554	-
Total	**23,758**	**33,257**	**6,596**	**6,429**

The past due but not impaired balances as at 31 December 2016 include £21.4 million (2015: £29.8 million) relating to four (2015: four) real estate transactions where collateral value exceeds the facility balance. Impairment is not appropriate on the basis of the level of security or collateral available and/or the stage of collection of amounts owed to the Group and Bank. An analysis of impairments is provided in Note 14 "Impairment of financial assets and operating leases".

Forbearance

BLME offers programmes to assist customers in financial difficulty through modification of terms or agreements to accept less than contractual amounts due where financial distress could otherwise prevent satisfactory repayment. Such agreements may be initiated by the customer, but may be initiated by BLME or a third party.

Forbearance is considered to occur when, BLME, for reasons pertaining to the actual, imminent or perceived financial stress of a customer, allows, grants, or restructures facilities on terms that are outside of its current lending appetite when considered against the credit risk of the customer. To note, while guidance is provided by the Target Market Criteria ("TMC"), this does not necessarily mean that any granting of facilities that fall outside of TMC constitutes forbearance.

Forbearance would typically be evident where the concession(s) agreed impact the ability to repay debt or avoid recognising a default with a lack of appropriate commercial balance and risk mitigation/structural enhancement of benefit to the Bank in return for that concession.

A concession refers to either of the following actions:

- A modification of the previous terms and conditions of a contract, that the debtor is considered unable to comply with, due to its financial difficulties ("troubled debt") in order to allow for sufficient debt serviceability that would not have been granted had the debtor not been in financial difficulty
- A total or partial refinancing of a troubled debt contract that would not have been granted had the debtor not been in financial difficulty

Evidence of a concession includes:

- A difference in favour of the debtor between the modified and the previous terms of the contract
- Cases where a modified contract includes more favourable terms than other debtors with a similar risk profile could have obtained from the Bank

The revised terms may include a reduction of current contractual profit rate or other fees, amending the terms of exposure covenants, extending the maturity and/or changing the timing of profit rate payments. All exposures are subject to the forbearance policy. The Bank's forbearance register is maintained by the Credit department and is subject to monthly oversight by the Bank's Counterparty Credit Risk Committee. The Audit Committee also reviews reports on forbearance activities.

Agreement to forbearance does not necessarily result in an impairment of that facility. All impairments will be individually assessed by the Credit department and Counterparty Credit Risk Committee on a case-by-case basis.

The forbearance classification and reporting will be discontinued when all of the following conditions are met:

1) The contract is considered as performing after an analysis of the financial condition of the debtor showed it no longer met the conditions to be considered as non-performing
2) A minimum 2 year probation period has passed from the date the forborne exposure was considered as performing
3) Regular payments of more than an insignificant aggregate amount of principal and profit have been made during at least half of the probation period
4) None of the exposure to the debtor is more than 30 days past due at the end of the probation period

The exposure continues to be reported as forborne until such time as all of the conditions are met. The conditions are assessed on a monthly basis.

Based on the credit exposures existing as at 31 December 2016 there had been thirteen instances (2015: eleven):

- where the Bank waived material financial covenants or agreed to temporary relaxation of repayment terms which were subsequently cured;
- where the Bank agreed to provide temporary facilities beyond the terms upon which the facilities were intended to operate; and/or

- where the Group agreed to extend facilities beyond their contractual term outside of its normal credit criteria

The carrying value as at 31 December 2016 of exposures relating to forborne counterparties with no specific impairment charge was £60.1 million, which represents 6% of the Group's total assets (2015: £30.5 million and 2%).

- **Allowance for impairment**

The Group has established a policy to monitor impairment events that could lead to losses in its asset portfolio. This policy covers specific loss events for individual significant exposures as well as for events that relate to collective losses on groups of homogenous assets that have yet to be identified and assessed individually for impairment. The Group writes off a balance (and any related allowances for impairment) when the Credit Risk Department determines that the balance is uncollectible. This determination would be reached after considering information such as the occurrence of significant changes in the counterparty's financial position such that the counterparty can no longer pay the obligation, or that proceeds from collateral will not be sufficient to pay back the entire exposure.

vi. Collateral

The Group monitors the market value of its collateral on an on-going basis which, dependent upon the collateral type, can vary from monthly to at least once a year. The Group uses external valuers to perform independent valuations of assets. These valuations are reviewed and challenged by management and, where applicable, corroborated with internal estimations. In calculating collateral value, the Group considers factors such as asset condition, market environment, ease of liquidation and the interdependency between the borrower and collateral.

As at 31 December 2016, collateral represented 60% (2015: 59%) of the Group's total credit exposure.

Financial assets and non-financial assets obtained by the Group by taking possession of collateral held as security against financing arrangements and finance leases and held at the year-end are shown below:

Assets obtained by taking possession of collateral	**2016**	**2015**
	£000	**£000**
Real estate	3,596	6,346
Total	**3,596**	**6,346**

The real estate collateral balance reported above relates to a property that was under the appointment of an LPA receiver at 31 December. Negotiations with third parties have progressed, and in February 2017, the Bank concluded an exit having realised the collateral at a value that did not require further impairment charges.

Group	**2016 On balance sheet exposure**	**2016 Collateral**	**2015 On balance sheet exposure**	**2015 Collateral**
	£000	**£000**	**£000**	**£000**

Raw materials/ finished stock	114,093	132,567
Total credit exposure	**593,606**	**709,374**

In addition, the Group and Bank holds financial guarantees of £60.9 million (2015: £47.4 million) against financing arrangements.

Collateral is disclosed at the lower of 100% of the exposure or management estimation of the value of the collateral based on prevailing valuations.

Bank	2016 On balance sheet exposure	2016 Collateral	2015 On balance sheet exposure	2015 Collateral
	£000	£000	£000	£000

Raw materials/ finished stock	114,093	132,567
Total credit exposure	**593,606**	**737,329**

As at 31 December 2016, 94% (2015: 90%) of the Group's and Bank's property lending exposure had a financing-to-value ratio equal to or less than 70%.

vii. Offsetting financial assets and liabilities

Whilst the Bank has entered into Master Agreements with counterparties that allow the Bank to obtain collateral which, if an event of default occurs, permits settlement of all outstanding transactions with each counterparty on a net basis; no such commercial arrangements have been transacted and accordingly there are no offsetting financial assets and liabilities which require disclosure under the amendments to IFRS 7.

viii. Fair value of financial assets and liabilities

The following table summarises the carrying amounts and estimated fair values of financial assets and liabilities.

Group	Note	Fair value hierarchy	2016 Carrying value £000	2016 Fair value £000	2015 Carrying value £000	2015 Fair value £000

* the carrying amount of these financial assets and financial liabilities are representative of their fair values.

Notes

i. These assets represent short term liquidity; the majority of these assets have an average residual life of 2 sweeks and a maximum individual residual maturity of 6 weeks. The assets are placed with banks with an average credit rating of A. On this basis, carrying value reflects fair value.

ii. Fair value represents independent external valuation or last trade.

iii. For financial assets and financial liabilities measured at amortised cost, the fair value has been estimated by calculating the present value of future cash flows associated with each deal using a risk-adjusted discount rate, which is the unobservable input.

iv. For other assets held at amortised cost, fair value is approximately equal to carrying value.

Valuation of Financial Instruments

The Group's fair value measurement techniques can be found in Note 3b.

The table below analyses financial instruments measured at fair value at the end of the reporting period, by the fair value hierarchy.

Group	2016 Level 1 £000	2016 Level 2 £000	2016 Level 3 £000	2016 Total £000
Investment securities	90,171	18,820	3,170	112,161
Investment properties	-	-	-	-
Profit rate swaps liability	-	1,305	-	1,305
Other assets (FX deals)	-	3,888	-	3,888

Group	2015 Level 1 £000	2015 Level 2 £000	2015 Level 3 £000	2015 Total £000
Investment securities	190,909	-	3,803	194,712

Other assets (FX deals)	-	3,888	-	3,888

Bank	2015 Level 1 £000	2015 Level 2 £000	2015 Level 3 £000	2015 Total £000
Investment securities	126,122	58,056	7,365	191,543
Profit rate swaps liability	-	1,369	-	1,369
Other assets (FX deals)	-	5,303	-	5,303

During the year, there were no transfers between Level 1 and Level 2 fair value measurements (2015: none) and no transfers into or out of Level 3 fair value measurements (2015: none). Transfers between levels occur at the date of the event or change in circumstances that caused the transfer.

The investment properties were valued by an independent professional firm of qualified surveyors in accordance with the RICS Valuation – Professional Standards, incorporating the International Valuation Standards, Global and UK edition (2014) – 'the Red Book'. The properties were all held for investment purposes and were valued on the basis of Market Value, defined within the Red Book as:

"The estimated amount for which an asset or liability should exchange on the date of valuation between a willing buyer and willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion."

Market value was determined by applying the income approach based on the rent passing, the estimated rental value of the property, the lease term, expected vacancy rates and the market yield, and was estimated by the external valuer based on comparable transactions and industry data. The inputs into the valuation models were derived from observable market data and therefore management was able to conclude on the appropriateness of categorising investment properties as level 2. More information regarding the Group's investment properties is included in Note 19.

The level 3 investment securities are valued by an independent professional firm of corporate finance and capital markets advisors who use a market approach to value the portfolio. Market value is determined by using prices and other relevant information generated by market transactions involving the individual security and/or identical or comparable securities.

There have been no changes to the methodologies used in valuing the level 2 and 3 assets (2015: none).

The following table shows a reconciliation from the beginning balances to the ending balances for fair value measurements in Level 3 of the fair value hierarchy.

Group	**2016**	**2015**
Investment securities	**£000**	**£000**
Balance at 1 January	3,803	3,339
Total gains / (losses) recognised in:		
- profit or loss*	(487)	(214)
- other comprehensive income**	34	549
Purchases	-	130
Sales	(180)	(1)
Balance at 31 December	**3,170**	**3,803**

Bank	**2016**	**2015**
Investment securities	**£000**	**£000**
Balance at 1 January	7,365	3,355
Total gains / (losses) recognised in:		
- profit or loss*	(4,028)	(214)
- other comprehensive income**	32	549
Purchases	-	3,676
Sales	(180)	(1)
Balance at 31 December	**3,189**	**7,365**

** this amount is included in "net fair value losses on investment securities" in the income statement*
*** this amount is included in "changes in fair value of available-for-sale financial assets taken to equity" in the statement of comprehensive income*

Of the £4.0 million recognised in the income statement (2015: £0.2 million), £3.5 million (2015: £0.2 million) is attributable to the deconsolidation of Renaissance Asset Finance Limited and the remainder due to the change in unrealised gains or losses relating to those assets held at the balance sheet date.

The reconciliation for investment properties is included in Note 19.

For the fair values of available-for-sale equity securities, reasonably possible changes at the reporting date to one of the significant unobservable inputs, holding the other inputs constant, would have the following effects:

Group and Bank				31 December 2016
	Income statement		Other comprehensive income	
	Increase	Decrease	Increase	Decrease
	£000	£000	£000	£000
Valuation adjustment +30%	-	-	1,358	-
Valuation adjustment -30%	-	(387)	-	(512)

Group and Bank				31 December 2015
	Income statement		Other comprehensive income	
	Increase	Decrease	Increase	Decrease
	£000	£000	£000	£000
Valuation adjustment +30%	-	-	1,236	-
Valuation adjustment -30%	-	(595)	-	(641)

ix. Financial assets and liabilities

The following table details the carrying value by category of financial assets and liabilities as at 31 December 2016.

Group	2016 Fair value through profit and loss	2016 Available-for-sale	2016 Financial assets at amortised cost	2016 Total

b. Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting its financial obligations as they fall due, arising from the differing maturity profile of its assets and liabilities. This risk is managed by ensuring that the Group has sufficient liquidity to meet its liabilities when due.

The Treasury Division is responsible for monitoring the liquidity profile of financial assets and liabilities, including projected cash flows from current and future business. This area maintains a portfolio of short-term money market assets and marketable securities and seeks to ensure that sufficient liquidity is maintained. The liquidity position is monitored on a daily basis in accordance with guidelines issued by ALCO and approved by Board Risk Committee. Overall, the management of liquidity risk is conducted in accordance with the Group's Liquidity Risk Management Policy and its annual Individual Liquidity Adequacy Assessment, as required by the Prudential Regulatory Authority. Included in the ILAAP is BLME's Contingency Funding Plan that details actions during a liquidity stress.

Over and above regulatory liquidity, ALCO establishes its own liquidity performance measures and prudential guidelines. These include a series of early warning triggers and management data on liability stability (i.e. the likelihood of deposits being withdrawn), liability diversification and reserve liquidity. As at 31 December 2016, the Bank held £777 million (2015: £962 million) of term deposits and held £2.0 million (2015: £2.4 million) of secondary market assets.

Residual contractual maturities of financial assets

	452,137	**105,281**	**233,097**	**476,819**	**7,426**	**1,274,760**

The tables above show the contractual, undiscounted cash flows of the Group's and Bank's financial assets. The Group and Bank are the senior lender in all of their lending exposures.

None of the Group's and Bank's assets have been pledged as collateral apart from cash collateral deposits of £0.5 million (2015: £0.5 million) as security against rental payments on the Group's and Bank's premises. Consequently, all of the Group's and Bank's assets are unencumbered.

Residual contractual maturities of financial liabilities

	72,545	**158,493**	**673,285**	**115,001**	**-**	**1,019,324**

The tables above show the contractual, undiscounted cash flows of the Group's and Bank's financial liabilities apart from profit rate swaps which are stated at fair value.

Whilst BLME has sufficient assets in the short dated time buckets to cover its short dated liabilities as they become due, it also holds a significant Liquid Asset Buffer (in line with the PRA rules) of £89.7 million as at 31 December 2016 (2015: £115.3 million). These LAB holdings have been greater than the regulatory liquidity requirement throughout the year (unaudited).

The following table sets out components of the Group's liquidity reserve:

Group	2016 £000	2015 £000
Cash and cash equivalents	71,152	88,732
Highly liquid securities (including LAB)	90,171	190,909
Total	**161,323**	**279,641**

As at 31 December 2016, there are no limitations on the use of the liquidity reserve held by the Group (2015: none).

The following table sets out components of the Bank's liquidity reserve:

Bank	2016	2015
	£000	£000
Cash and cash equivalents	68,560	72,814
Highly liquid securities (including LAB)	90,413	126,122
Total	**158,973**	**198,936**

As at 31 December 2016, there are no limitations on the use of the liquidity reserve held by the Bank (2015: none).

c. Market risks

Market risk is the risk that changes in market prices will affect income. It covers profit rate risk, credit spread risk, equity price risk and foreign exchange risk. The credit spread risk only pertains to the part that is not related to the issuer's / obligor's credit standing as that part is already covered in credit risk. In accordance with the Group's Market Risk Management Policy, ALCO is responsible for reviewing all classes of market price risk and positions, sanctioning dealing limits and approving BLME's stress testing program in accordance with BLME's Stress Testing and Scenario Analysis Policy.

The principal exposure to market risk relates to asset and liability market rate re-price risk within the accrual based Banking Book. These risks are governed by mismatch limits expressed as the present value sensitivity of a 1 basis point change in profit rates. The main stress tests relate to asset and liability re-price, credit spread and FX risks.

The table below sets out the allocation of assets and liabilities subject to market risk between trading and non-trading portfolios:

Group		Market risk measure	
31 December 2016	Carrying amount	Trading portfolio	Non-trading portfolio
Assets subject to market risk	**£000**	**£000**	**£000**

Profit rate swaps	1,369	-	1,369

With the exception of two sukuks which are GBP denominated, all of the sukuk within investment securities are USD denominated; consequently any strengthening or weakening of the GBP:USD exchange rate would have a corresponding impact on the carrying value. This assumes that all other variables, in particular profit rates, remain constant and ignores any impact of forecast sales and purchases.

i. Profit rate risk

This risk arises from the effects of changes in profit rates on the re-pricing of assets and liabilities, and covers both fixed and variable profit rates. The Group manages such risks through the use of time based limits that measure the profit rate sensitivity to changes in profit rates.

As at 31 December 2016, the Group's net profit rate sensitivity to profit and loss on its fixed and variable rate assets as measured by the discounted value of a one basis point change in market rates, was £24,853 (2015: £6,383). The impact of an increase / decrease of 100 basis points in profit rates at the statement of financial position date, subject to a minimum rate of 0%, would be as follows:

	At 31 December 2016		At 31 December 2015	
	Increase of 100 bp £000	Decrease of 100 bp £000	Increase of 100 bp £000	Decrease of 100 bp £000
Increase in profit & loss	4,575	-	1,893	-
Decrease in profit & loss	-	5,228	-	1,749
Increase in equity	3,160	-	2,447	-
Decrease in equity	-	3,739	-	2,386

ii. Credit spread risk

In 2015, the Bank operated a Sukuk Trading Book, within which the portfolio size and individual issuer risks were limited to modest proportions since BLME does not have a material appetite for Trading Risk. These positions were exited during 2015 and as such, no credit spread risk existed since 31 December 2015.

iii. Foreign exchange risk

Foreign exchange risk is the risk that the value of a non-Sterling asset or liability position will fluctuate due to changes in currency rates. The Bank does not take significant foreign exchange positions and the majority of risk relates to earnings on US Dollar assets and US Dollar liabilities whose maturities are broadly matched. The Board has established position and stop loss limits to ensure that positions and revaluation results are subject to independent daily monitoring and reporting to senior management.

	At 31 December 2016 £000	At 31 December 2015 £000
Resultant FX revaluation gain from a 10% strengthening or weakening of the net foreign currency positions against Sterling	68	22

	Year to 31 December 2016 £000	Year to 31 December 2015 £000
Net foreign exchange gain / (loss) for the period	756	(528)

iv. Equity price risk

Equity prices are monitored by the Group's Assets and Liabilities Committee, but the sensitivity risk is not currently significant in relation to the overall results and financial position of the Group and Bank.

d. Operational risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events.

The responsibility for the operating framework for risk governance rests with the Board. This extends to determining risk appetite in line with the Bank's strategy and ensuring that there is a clearly defined risk management structure with distinct roles and responsibilities that allow risks to be monitored, controlled and reported effectively. Risk governance is underpinned by ensuring that the Board and its committees are provided with transparent and risk sensitive reporting to facilitate their accountabilities and decision making. The Operational Risk Framework is built around the three lines of defence model. This Framework has been approved and is periodically reviewed by the Board through the Board Risk Committee.

Senior Management ensures the identification and assessment of operational risk through a Risk and Control Self-Assessment ("RCSA") process. Technology risk (including CyberSecurity and Information Risk) surrounding core banking systems is perceived to be the area of risk that concerns most business areas and is compounded by a high inherent End User Computing risk. Operational risk events are reported through a centralised risk management system accessible to all staff; the resolution of an event is monitored by a network of operational risk 'champions' located within each business unit and support function.

Basel III requires capital to be retained for operational risk, which the Group and Bank has calculated to be £7.0 million using the Basic Indicator Approach (2015: £6.4 million) (unaudited).

e. Capital adequacy

At 31 December 2016 and throughout the year the Bank complied with the capital requirements that were in force as set out by the Prudential Regulation Authority ("the PRA") (unaudited). The PRA adopted the Basel III requirements with effect from 1 January 2014.

The Bank's regulatory capital position as at 31 December was as follows:

	2016	2015
Audited	**£000**	**£000**
Tier 1 Capital - CET1		
Ordinary share capital	48,933	48,933
Share premium	180,623	180,623
Retained (losses) / earnings	(14,033)	7,361
Total Tier 1 capital	**215,523**	**236,917**
Unaudited		
Deductions from Tier 1 capital		
Intangible assets	(1,708)	(2,262)
Others	847	(1,003)
Total Tier 1 capital after deductions	**214,662**	**233,652**
Tier 2 capital	4,398	3,346
Total Tier 2 capital	**4,398**	**3,346**
Total Tier 1 and Tier 2 capital	**219,060**	**236,998**
Deductions from Tier 1 and Tier 2 capital:		
Investment in BLME Sharia'a Umbrella Fund SICAV SIF	-	(34,494)
Investment in DMJ II LLC	-	-
Investment in group companies	-	-
Total regulatory capital	**219,060**	**202,504**

The amounts of regulatory capital shown above differ from the equity balances shown in the Bank’s statement of financial position in light of adjustments in respect of certain reserves, which are not eligible under the PRA’s capital adequacy rules. The Bank’s Return on Assets for the year was (2.0)% (2015: (0.5)%).

Under the capital adequacy rules applicable from 1 January 2008, the Bank adopted the Standardised Approach to Credit Risk and the Basic Indicator Approach to Operational Risk. Counterparty Credit Risk (“CCR”) is measured using the CCR mark-to-market method, and Market Risk is determined using the standard Position Risk Requirement (“PRR”) rules.

BLME’s overall minimum capital resource requirement under Pillar 1 is calculated by adding the credit risk charge to that required for Operational Risk, for Market Risk and for CCR.

The following table shows both the Bank’s overall minimum capital requirement and capital adequacy position under Pillar 1 at 31 December:

	2016 £000 (unaudited)	2015 £000 (unaudited)
Pillar 1 capital requirements		
Credit risk	76,759	97,618
Market risk - foreign currency PRR	596	267
Counterparty risk capital component	74	100
Operational risk	6,993	6,434
Total Pillar 1 capital requirement	**84,422**	**104,419**
Total regulatory capital in place	**219,060**	**202,504**

The Bank undertakes regular internal assessments of the amount of capital which it requires to support its activities. This assessment process is called the Internal Capital Adequacy Assessment Process ("ICAAP"). The ICAAP identifies a number of other risks faced by the Bank which do not explicitly attract a capital requirement under the Pillar 1 rules. The Bank allocates additional capital for these Pillar 2 risks ("the Pillar 2 capital requirement"). The total capital requirement of the Bank is determined as the sum of the Pillar 1 and the Pillar 2 capital requirements.

The PRA reviews the Bank's ICAAP assessment of its Pillar 2 capital requirement as part of the Individual Capital Guidance ("ICG") process. The Bank manages its capital in accordance with its Pillar 2 capital requirement and was in compliance throughout the year.

The Bank has put in place processes to monitor and manage capital adequacy which includes reporting regulatory capital headroom against the Pillar 2 capital requirement to executive management on a daily basis. Further information regarding the Bank's approach to risk management and its capital adequacy are contained in the unaudited disclosures made under the requirements of Basel II Pillar 3 (the Pillar 3 disclosures) which can be found in the Investor Relations section of the BLME website www.blme.com .

The Bank will continue to prudently employ capital and maintain appropriate capital adequacy, liquidity and leverage ratios. BLME reported to the PRA ratios above the minimum requirement throughout 2016. The capital planning process continues to incorporate these measures.
